ENVIRONMENTAL MANAGEMENT BASICS

"Build a Strong Foundation in Environmental Responsibility and Compliance"

Schedule

Venue (InHouse)	Fees
At Your Organization Premises	Ask For The Quotation

► **Available delivery methods:** Face-to-Face & Online Training, In-House Training

Introduction

This foundational course provides participants with a clear understanding of environmental management principles, practices, and legal responsibilities. Designed for professionals across industries, it introduces the key components of environmental systems, sustainability, pollution control, and regulatory frameworks. Participants will gain confidence in contributing to their organization\'s environmental performance and compliance goals.

Objectives

By the end of this training, participants will be able to:

- Understand environmental management principles and ISO 14001
- Identify major environmental aspects and impacts
- Recognize pollution types and control measures
- Navigate key environmental laws and compliance requirements
- Support implementation of environmental management systems (EMS)

Why Attend

As environmental compliance becomes central to global business operations, this course equips you with essential knowledge to reduce risk, protect the environment, and align with regulatory and ESG expectations.

Target Audience

- Junior environmental officers and engineers
- Health, Safety & Environment (HSE) staff
- Operations and maintenance personnel
- Facility and site supervisors
- New EMS team members

Individual Benefits

- Build foundational knowledge of environmental systems
- Understand your role in pollution prevention and compliance
- Boost your qualifications for environmental and HSE roles

Organizational Benefits

- Improve compliance with environmental laws and ISO standards
- Foster environmental awareness across teams
- Reduce environmental liabilities and improve sustainability outcomes

Instructional Methodology

- Expert-led presentations
- Practical exercises and group discussions
- Real-world examples and environmental incident case studies
- Interactive Q&A sessions
