INDUSTRIAL SAFETY FOR CONTRACTORS

"Building Safer Worksites Through Contractor Safety Excellence"

Schedule

Venue (InHouse)	Fees
At Your Organization Premises	Ask For The Quotation

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

This course is designed to enhance the understanding and implementation of industrial safety standards among contractors. Participants will learn how to identify, control, and prevent workplace hazards to ensure a safe and compliant work environment.

Objectives

- Understand key industrial safety regulations and standards.
- Identify workplace hazards and implement preventive measures.
- Promote contractor accountability for site safety.
- Learn effective communication and reporting procedures for incidents.
- Foster a proactive safety culture in industrial operations.

Why Attend

This training equips contractors and supervisors with the essential skills to ensure compliance, prevent accidents, and maintain a safe working environment — protecting both people and productivity.

Target Audience

Contractors, site supervisors, project managers, safety officers, and anyone responsible for on-site safety.

Individual Benefits

- Gain practical safety management skills.
- Improve awareness of industrial risks.
- Enhance reputation as a safety-conscious contractor.

Organizational Benefits

- Reduce workplace accidents and downtime.
- Ensure compliance with safety standards.
- Strengthen contractor management systems.

Instructional Methodology

Interactive lectures, real-life case studies, group discussions, and scenario-based exercises.
