CILT CERTIFICATE IN FLEET AND TRANSPORT MANAGEMENT

"Enhance Operational Efficiency, Safety, and Cost-Effectiveness in Fleet and Transport Operations."

Schedule

Venue (In-house)	Fees
At Your Organization Premises	Ask For The Quotation

Introduction

Effective fleet and transport management is a critical component of logistics, supply chain efficiency, and organizational performance. The CILT Certificate in Fleet and Transport Management equips participants with the knowledge, tools, and best practices required to manage vehicle fleets, optimize transport operations, and ensure compliance with regulatory and safety standards.

This course covers strategic and operational aspects of fleet management, including vehicle acquisition, maintenance, fuel management, route optimization, and risk management. Participants will gain practical skills to enhance efficiency, reduce operational costs, and improve service levels while maintaining safety and compliance across their transport operations.

Objectives

By the end of this course, participants will be able to:

- Understand the principles and scope of fleet and transport management.
- Plan and optimize fleet operations for cost-efficiency and reliability.
- Implement effective vehicle maintenance and lifecycle management strategies.
- Manage fuel consumption, procurement, and sustainability initiatives.
- Ensure compliance with health, safety, and transport regulations.
- Apply risk management techniques to fleet and transport operations.
- Analyze transport data to improve decision-making and operational performance.
- Integrate fleet management with wider logistics and supply chain strategies.

Why Attend

Fleet and transport operations are vital to organizational success, impacting costs, service quality, and operational reliability. This course provides participants with practical, industry-aligned knowledge to optimize fleet performance, enhance safety, and implement best practices in transport management. It is ideal for fleet managers, logistics professionals, and operations leaders seeking to improve efficiency and control across their transport operations.

Target Audience

This course is suitable for:

- Fleet Managers and Supervisors
- Transport and Logistics Coordinators
- Operations and Supply Chain Professionals
- Maintenance and Vehicle Management Personnel
- Health, Safety, and Compliance Officers
- Anyone involved in managing fleets, transport operations, or logistics functions

Individual Benefits

- Develop a strong understanding of fleet and transport management principles.
- Learn to optimize vehicle operations, maintenance, and fuel efficiency.
- Gain practical skills in risk management, compliance, and route planning.
- Improve analytical, problem-solving, and decision-making capabilities.
- Enhance professional credibility and career opportunities in transport and logistics.
- Build confidence in managing complex fleet and transport challenges.

Organizational Benefits

- Reduce operational costs and improve fleet efficiency.
- Increase vehicle uptime and reliability through effective maintenance planning.
- Enhance safety and compliance across transport operations.
- Optimize route planning and fuel management for cost savings.
- Improve overall service delivery and customer satisfaction.
- Build organizational expertise in fleet and transport management.

Instructional Methodology

The course combines theoretical knowledge with practical, hands-on learning through:

- Instructor-led sessions and expert presentations
- Case studies and real-world examples from transport operations
- Workshops on fleet planning, maintenance, and optimization
- Risk assessment and compliance exercises
- Group discussions, problem-solving, and scenario analysis
- Continuous feedback and applied learning exercises

MAWA EVENTS

Address: No. 857, Block A2. Leisure Commerce Square - No 9., 46150 Petaling Jaya, Selangor, Malaysia

Phone: +601116373203 | **Email:** info@mawaevents.net

Course Outline

Module 1: Introduction to Fleet and Transport Management

Module 2: Fleet Planning and Vehicle Lifecycle Management

Module 3: Maintenance Management and Vehicle Performance Monitoring

Module 4: Fuel Management, Sustainability, and Cost Control

Module 5: Transport Operations and Route Optimization

Module 6: Risk Management and Safety Compliance

Module 7: Legal and Regulatory Requirements in Fleet Operations

Module 8: Performance Measurement and Key Performance Indicators

Module 9: Technology and Automation in Fleet and Transport Management

Module 10: Capstone Workshop – Developing a Comprehensive Fleet Management Plan

Certification

Upon successful completion, participants will receive the CILT Certificate in Fleet and Transport Management, recognizing their professional competence in managing fleet operations, optimizing transport performance, and ensuring safe, cost-effective, and compliant transport management practices.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation’s unique goals.
