TOOLS & TECHNIQUES FOR AUDIT MANAGER

""Strengthening Internal Audit Leadership through Advanced Tools, Risk Insight, and Strategic Influence""

Schedule

Date	Venue	Fees (Face-to-Face)
26 - 30 Jan 2026	Dubai, UAE	USD 3495 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

Audit managers today operate in an increasingly complex environment where expectations from boards, regulators, and management continue to grow. Moving beyond compliance, audit managers are now expected to add measurable value, lead audit teams, and communicate risk perspectives that shape decision-making. This comprehensive 5-day course is designed to elevate the skills of audit managers through a deep dive into the latest tools, techniques, and leadership strategies for managing modern audit functions. Participants will gain hands-on experience in planning, execution, risk-based audit design, stakeholder communication, and leveraging data analytics for assurance.

Objectives

By the end of this course, participants will be able to:

- Lead risk-based audit planning and resource management.
- Apply advanced tools for audit execution and documentation.
- Use data analytics and automation to increase audit efficiency.
- Evaluate internal controls and design effective testing programs.
- Deliver impactful audit reports and engage with executive stakeholders.
- Develop team performance and foster a culture of continuous improvement.

Why Attend

- Upgrade your audit management skills to meet evolving global standards.
- Learn proven tools and templates to plan, lead, and monitor audits.
- Gain strategic insight to influence risk response and organizational decisions.
- Build stronger relationships with management and audit committees.
- Manage audit teams and projects more effectively for better performance.

Target Audience

This program is designed for:

- Internal audit managers and supervisors
- Senior auditors transitioning to managerial roles
- Heads of audit or compliance professionals
- Risk officers involved in audit coordination
- Quality assurance professionals and governance specialists.

Individual Benefits

Key competencies that will be developed include:

- Audit project management
- Risk-based audit planning and scoping
- Communication and negotiation with audit stakeholders
- Supervision, review, and coaching techniques
- Innovation in audit tools and automation

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Enhanced audit performance and efficiency
- Stronger risk identification and control evaluation
- Improved audit team management and retention
- Better audit committee engagement and insight delivery
- Increased audit value through strategic alignment.

Instructional Methodology

- Lectures – Internal audit frameworks, tools, and industry best practices
- Interactive Workshops – Planning, scoping, and testing exercises
- Group Activities – Simulated audit planning and review sessions
- Templates – Risk registers, audit workpapers, checklists, dashboards
- Case Studies – Practical audit challenges and board-level communication
- Peer Exchange – Real-world experience sharing and problem-solving
