Introduction

With increasingly complex criminal networks and growing global regulations, anti-money laundering (AML) and financial crime compliance have become critical to financial institutions and non-financial businesses alike. Organizations that fail to manage AML risks face legal penalties, reputational damage, and regulatory sanctions.

This comprehensive three-day course equips professionals with practical knowledge to identify, assess, prevent, and report financial crime activities. Participants will explore AML frameworks, customer due diligence (CDD), suspicious transaction monitoring, sanctions compliance, and emerging threats such as cybercrime and trade-based laundering. The training is aligned with FATF, Wolfsburg, and local regulatory expectations.

Objectives

By the end of this course, participants will be able to:

- Understand money laundering techniques and financial crime typologies.
- Implement AML compliance frameworks in line with international standards.
- Conduct risk-based customer due diligence and enhanced due diligence (EDD).
- Monitor transactions and detect suspicious activities effectively.
- Prepare AML reports, file STRs, and respond to audits and investigations.
- Mitigate exposure to fraud, terrorist financing, and sanctions breaches.

Why Attend

- Strengthen your AML knowledge with practical tools and real-world case studies.
- Ensure compliance with FATF, local regulators, and global best practices.
- Understand how to manage reputational and regulatory risk proactively.
- Improve your ability to detect and respond to financial crime activities.
- Build cross-functional cooperation between compliance, operations, and frontline staff.

Target Audience

This program is designed for:

- Compliance officers and AML analysts
- Risk and internal audit professionals
- Bankers, insurers, and remittance officers
- Law enforcement, regulators, and investigators
- Legal and finance professionals responsible for AML oversight

Individual Benefits

Key competencies that will be developed include:

- AML framework implementation
- Customer due diligence and onboarding
- Suspicious transaction monitoring
- AML risk assessments and reporting
- Investigation and audit readiness

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Reduced exposure to regulatory fines and AML breaches
- Stronger internal controls and CDD processes
- Greater clarity and speed in identifying and responding to risks
- Higher compliance ratings from regulators and external auditors
- Improved institutional reputation and public trust

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Compliance Briefings – FATF standards, regulatory updates, and case law
- Tools – Risk scoring models, CDD/EDD templates, STR filing checklists
- Workshops – Risk assessment, case analysis, and red flag detection
- Case Studies – Global and regional AML failures and enforcement actions
- Peer Learning – Scenario-based team activities and audit simulations
- Templates – Audit trail forms, due diligence reports, and AML dashboards
