

CORPORATE MANAGEMENT & CONTROL

“Driving Organizational Effectiveness through Governance, Performance Oversight, and Strategic Control”

Schedule

Date	Venue	Fees (Face-to-Face)
22 - 23 Jan 2026	Kuala Lumpur, Malaysia	USD 1995 per delegate

Introduction

Effective corporate management is the backbone of strategic execution and enterprise stability. As organizations face increasing complexity, regulatory scrutiny, and performance pressure, leaders must implement robust control mechanisms to monitor outcomes, reduce risks, and align actions with strategic goals.

This intensive two-day course provides a comprehensive framework for aligning corporate structures, processes, and people to achieve control and transparency at all levels. Participants will explore internal control systems, performance management frameworks, governance practices, and organizational accountability tools to help improve decision-making, mitigate risks, and build organizational resilience.

Objectives

By the end of this course, participants will be able to:

- Understand the principles and systems of effective corporate control
- Design and implement internal control and governance frameworks
- Align operational performance with strategic objectives
- Monitor and evaluate corporate risk, compliance, and performance metrics
- Improve cross-functional coordination and leadership accountability
- Strengthen board and executive oversight mechanisms.

Why Attend

- Enhance your understanding of corporate control systems across functions
- Learn how to link performance, governance, and risk at the leadership level
- Build a transparent control environment that aligns with global best practices
- Identify and mitigate gaps in strategic execution and operational control

Strengthen your role in corporate decision-making and organizational accountability

Target Audience

This program is designed for:

- Senior managers and executives
- Corporate planning, strategy, and performance officers
- Internal auditors and compliance managers
- Governance, risk, and control professionals
- Business unit leaders involved in cross-functional reporting and control

Individual Benefits

Key competencies that will be developed include:

- Strategic alignment and corporate reporting
- Control environment development
- Risk oversight and compliance understanding
- Performance monitoring and evaluation
- Governance, ethics, and accountability frameworks

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Improved internal controls and oversight procedures
- Greater alignment between strategy and execution
- Clearer accountability frameworks and reporting discipline
- Reduced risk exposure and stronger compliance culture
- Enhanced enterprise-wide coordination and effectiveness

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Expert-led briefings with practical tools
- Real-world case studies on governance and control failures
- Hands-on workshops and dashboard simulations
- Group exercises and peer dialogue
- Templates for risk registers, control matrices, and scorecards

Course Outline

Detailed 2-Day Course Outline

Training Hours: 7:30 AM – 3:30 PM Daily Format: 3–4 Learning Modules | Coffee breaks: 09:30 & 11:15 | Lunch Buffet: 01:00 – 02:00
