RISK ASSESSMENT TRAINING

""Building a Strong Foundation in Identifying, Analyzing, and Managing Risk to Protect People, Assets, and Operations""

Schedule

Date	Venue	Fees (Face-to-Face)
29 Jan 2026	Online	USD 450 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

Risk management is a critical aspect of organizational safety and operational efficiency. Identifying potential hazards, evaluating their impact, and applying the correct controls is essential in preventing accidents, losses, and downtime. This course will provide participants with the knowledge and skills necessary to perform risk assessments in any industry and develop strategies for mitigating potential hazards.

This 1-day online course will cover risk identification, qualitative and quantitative risk analysis, risk mitigation strategies, and risk communication to ensure that participants are equipped to effectively evaluate and manage risks in their organization.

Objectives

By the end of this course, participants will be able to:

- Understand the principles and importance of risk assessment
- Identify and classify risks across various operational environments
- Use qualitative and quantitative techniques to evaluate risks
- Develop strategies to mitigate and control identified risks
- Communicate risk findings and mitigation plans effectively
- Apply risk management frameworks and tools in real-world scenarios

MAWA EVENTS

Address: No. 857, Block A2. Leisure Commerce Square - No 9., 46150 Petaling Jaya, Selangor, Malaysia

Phone: +601116373203 | **Email:** info@mawaevents.net

Why Attend

- Learn how to assess and manage risks systematically and effectively
- Understand how to comply with safety standards and regulatory requirements
- Build a risk assessment framework tailored to your organization’s needs
- Improve your ability to anticipate, control, and mitigate risks
- Gain practical experience with real-world risk assessment tools and techniques

Target Audience

This program is designed for:

- Safety officers and HSE coordinators
- Risk managers and compliance professionals
- Operations managers and supervisors
- Engineers and project managers responsible for risk assessments
- Anyone involved in safety, hazard identification, and risk management

Individual Benefits

Key competencies that will be developed include:

- Risk identification and classification techniques
- Risk analysis using qualitative and quantitative methods
- Risk mitigation strategies and best practices
- Incident analysis and reporting
- Improved communication of risk management findings

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Stronger risk management culture across departments
- Improved safety performance and reduced incident rates
- More informed and data-driven decision-making
- Better compliance with regulatory standards and industry guidelines
- Enhanced ability to handle risk-related challenges proactively

Instructional Methodology

- Strategy Briefings – Introduction to key risk assessment principles and frameworks
- Hands-On Exercises – Real-world risk identification, evaluation, and mitigation scenarios
- Case Studies – Examples of risk assessment failures and successes from various industries
- Workshops – Developing risk management plans and response strategies
- Peer Exchange – Sharing experiences and best practices from participants
- Tools – Risk assessment templates, risk registers, mitigation strategies
