Introduction

Growth is not just about increasing revenue—it's about creating sustainable value, scaling operations strategically, and maintaining alignment between people, processes, and performance. Business leaders must understand how to identify and capitalize on growth opportunities while mitigating the risks of overstretching resources or losing core focus.

This 2-day course equips participants with the knowledge and tools to formulate and implement business growth strategies that are realistic, data-driven, and aligned with market needs. Through real-world case studies and interactive workshops, participants will explore the foundations of growth management, execution planning, and performance measurement.

Objectives

By the end of this course, participants will be able to:

- Understand key drivers and barriers to business growth
- Design a strategic growth plan tailored to organizational goals and market dynamics
- Evaluate expansion models such as diversification, partnerships, and market entry
- Align growth strategies with operational, financial, and human capabilities
- Build performance dashboards and KPIs to track strategic execution
- Mitigate common risks associated with scaling businesses

Why Attend

- Learn how to balance strategic ambition with operational readiness
- Gain a structured framework to guide business scaling and expansion
- Discover new growth avenues through market analysis and innovation
- Align team capabilities, budgets, and infrastructure with growth plans
