Introduction

In an increasingly competitive and data-driven business landscape, understanding your market is not optional—it’s essential. Market research helps organizations identify customer needs, forecast demand, benchmark competitors, and make strategic decisions with confidence. Whether launching a product, entering a new market, or refining marketing strategy, research and analysis are the foundation.

This 3-day training program equips participants with the tools and techniques to design, conduct, and interpret market research effectively. The course blends strategic frameworks with hands-on data analysis to ensure participants can turn information into insight—and insight into action.

Objectives

By the end of this course, participants will be able to:

- Understand the purpose, types, and processes of market research
- Design and implement effective qualitative and quantitative research studies
- Collect, evaluate, and interpret primary and secondary data
- Apply statistical and analytical tools to generate actionable insights
- Translate research findings into strategic recommendations

Why Attend

- Gain confidence in commissioning and interpreting market research
- Learn how to design surveys, conduct focus groups, and analyze trends
- Improve marketing, product, and strategic decisions with real data
