PROJECT MANAGEMENT FOR ACCOUNTING & FINANCIAL SYSTEMS IMPLEMENTATION

"Successfully Delivering Financial System Projects on Time and Within Budget"

Schedule

Date	Venue	Fees (Face-to-Face)
13 – 17 Jul 2026	London, UK	USD 3495 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

This course equips project managers, financial leaders, and IT professionals with the tools and strategies needed to implement accounting and financial systems successfully. Participants will learn how to manage the full project lifecycle—from planning and vendor selection to system configuration, testing, user training, and go-live support—ensuring projects meet organizational goals.

Objectives

By the end of this course, participants will be able to:

- Understand the unique challenges of financial system implementations
- Develop realistic project plans and manage cross-functional teams
- Oversee vendor and stakeholder relationships effectively
- Identify and mitigate risks throughout the project
- Ensure system quality, compliance, and user adoption

MAWA EVENTS

Why Attend

- Gain specialized project management skills for finance system rollouts
- Improve collaboration between finance, IT, and vendors
- Avoid common pitfalls in ERP and financial system projects
- Enhance your ability to deliver successful, on-budget projects
- Build a roadmap for continuous improvement post-implementation

Target Audience

This program is designed for:

- Project managers overseeing finance/ERP system projects
- Finance managers and accounting leaders
- IT project managers and business analysts
- ERP consultants and implementation partners
- Internal audit and compliance professionals involved in system projects

Individual Benefits

Key competencies that will be developed include:

- Finance-specific project planning and execution
- Vendor negotiation and contract management
- Risk assessment and mitigation strategies
- Change management and user training
- Post-implementation review and system optimization

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Stronger project governance and accountability
- Improved system implementation outcomes
- Reduced risk of project overruns and failures
- Better alignment between finance operations and technology
- Enhanced data integrity, reporting, and compliance

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Expert-led presentations and real-world insights
- Case studies of successful (and failed) implementations
- Group discussions and hands-on exercises
- Templates and tools for immediate application
- Interactive workshops to reinforce learning
