

REAL ESTATE FINANCE & VALUATION

“Empowering Professionals with the Tools to Analyze, Finance, and Value Real Estate Investments”

Schedule

Date	Venue	Fees (Face-to-Face)
15 – 19 Mar 2026	Doha, Qatar	USD 3495 per delegate

Introduction

The ability to accurately finance and value real estate assets is critical for investors, developers, financial institutions, and public-sector decision-makers. With real estate markets becoming increasingly complex, professionals must understand valuation techniques, investment structuring, risk evaluation, and financial modeling to make informed and profitable decisions.

This intensive 5-day course provides a deep dive into the principles and practices of real estate finance and valuation. Participants will learn how to assess property investments, perform discounted cash flow analysis, evaluate development feasibility, and structure real estate transactions through a combination of hands-on exercises, case studies, and financial modeling.

Objectives

By the end of this course, participants will be able to:

- Apply key valuation methods including income, market, and cost approaches
- Construct real estate financial models using cash flow and return metrics
- Assess investment feasibility and risk for income-producing and development properties
- Evaluate financing structures and capital stack components
- Interpret market data and valuation reports to support strategic decisions

Why Attend

- Gain practical skills in valuing and financing various types of real estate assets
- Enhance your decision-making abilities with solid financial and market analysis
- Strengthen your confidence in working with investors, banks, and appraisal consultants
- Learn how to evaluate development proposals, leases, and returns
- Translate financial concepts into actionable investment and lending strategies

Target Audience

This program is designed for:

- Real estate developers and property managers
- Investment analysts and asset managers
- Bankers, lenders, and credit officers
- Appraisers, valuers, and financial advisors
- Government and institutional professionals involved in property and infrastructure

Individual Benefits

Key competencies that will be developed include:

- Financial modeling of real estate assets
- Valuation using DCF, NPV, IRR, and market comparisons
- Risk analysis and scenario testing
- Deal structuring and financing arrangements
- Communicating investment insights to stakeholders

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Improved investment screening and deal evaluation
- Stronger collaboration between finance, development, and valuation teams
- Better-informed decisions in lending, acquisition, or disposition strategies
- Enhanced internal capacity to interpret and use real estate market intelligence
- Greater confidence in underwriting and financing real estate projects

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings – Core financial and valuation concepts for real estate
- Case Studies – Property acquisition, development, and investment scenarios
- Workshops – Building valuation models and investment feasibility analysis
- Peer Exchange – Lessons learned from across regions and asset classes
- Tools – Excel templates for valuation, DCF modeling, and return analysis
