CONTINUOUS IMPROVEMENT WITH LEAN

"Driving efficiency, eliminating waste, and creating value through Lean thinking."

Schedule

Date	Venue	Fees (Online)
09 Jul 2026	Online	USD 450 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

This 1-day online course provides participants with the foundational knowledge and practical tools of Lean methodology to drive continuous improvement in their organizations. Through a mix of theory, case studies, and hands-on exercises, participants will learn how to identify waste, streamline processes, and deliver greater value to customers.

Whether you are new to Lean or looking to refresh your understanding, this course will help you apply Lean principles to improve productivity, reduce costs, and foster a culture of continuous improvement.

Objectives

By the end of this course, participants will be able to:

- Understand the core principles and tools of Lean methodology.
- Identify process inefficiencies and sources of waste.
- Apply Lean techniques to improve workflow and productivity.
- Develop a mindset for continuous improvement and innovation.
- Create an action plan to implement Lean practices in their own work.

Why Attend

- Learn proven methods to improve processes and reduce waste.
- Gain hands-on experience applying Lean tools.
- Boost productivity and efficiency in your team or department.
- Develop problem-solving and critical thinking skills.
- Help your organization become more agile and customer-focused.

Target Audience

This program is designed for:

- Managers and team leaders responsible for operational improvements.
- Quality, operations, and process improvement professionals.
- Employees involved in Lean or continuous improvement initiatives.
- Anyone interested in enhancing efficiency and adding value.

Individual Benefits

Key competencies that will be developed include:

- Practical understanding of Lean principles and tools.
- Ability to identify and eliminate waste in processes.
- Enhanced problem-solving and root cause analysis skills.
- Greater efficiency and productivity in daily work.
- Commitment to continuous improvement and innovation.

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Improved operational efficiency and cost savings.
- Stronger alignment with customer value and needs.
- A workforce engaged in continuous improvement efforts.
- Enhanced quality and consistency in processes.
- Greater organizational agility and competitiveness.

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings – Introduction to Lean principles, tools, and success factors.
- Case Studies – Real-world examples of Lean implementation and outcomes.
- Workshops – Hands-on exercises to map processes, identify waste, and apply Lean tools.
- Peer Exchange – Group discussions on continuous improvement challenges and lessons.
- Tools – Templates for value stream mapping, root cause analysis, and Lean action plans.
