► **Available delivery methods:** Face-to-Face & Online Training

Introduction

This course is designed to build the capabilities of HSE professionals, managers, and supervisors by equipping them with advanced knowledge and tools to implement and manage effective health & safety systems. It explores the evolving role of HSE leadership, risk management, regulatory compliance, and organizational behavior in reducing workplace incidents and improving safety culture. Participants will learn how to align HSE strategies with business goals, implement behavioral-based safety programs, assess risks using international frameworks, and audit systems for continuous improvement.

Objectives

Upon completing this course, participants will be able to:

- Develop and implement strategic HSE management systems
- Apply advanced risk assessment and control techniques
- Conduct internal audits and safety performance reviews
- Strengthen leadership and communication in HSE contexts
- Integrate behavioral safety and cultural transformation initiatives

Why Attend

- Gain advanced knowledge of international HSE standards (e.g., ISO 45001)
- Enhance leadership and communication skills for safety management
- Learn how to design HSE improvement programs tailored to your industry
- Strengthen your ability to lead risk-based safety initiatives
- Improve regulatory compliance and reduce organizational HSE risks

Target Audience

This course is ideal for:

- HSE Managers, Engineers & Officers
- Risk and Compliance Officers
- Operations & Facility Managers
- Internal Auditors and Inspectors
- Project Leaders and Supervisors

Individual Benefits

- Gain practical tools and templates for risk and safety management
- Improve your auditing and accident investigation skills
- Become a driver of positive safety culture in your organization
- Increase job effectiveness and career advancement in HSE roles

Organizational Benefits

- Reduce accident rates and improve legal compliance
- Foster a proactive HSE culture across departments
- Enhance employee well-being and productivity
- Lower insurance and operational costs through safety performance

Instructional Methodology

- Expert-led lectures and demonstrations
- Industry case studies and best practice analysis
- Role-playing and incident investigation simulations
- Group-based risk assessments and audit planning
- Interactive tools and real-time safety dashboards

Course Outline

Training Hours: 07:30 AM - 03:30 PM Daily Format: 3 Learning Modules | Coffee Breaks: 09:30 & 11:15 | Lunch: 01:00 - 02:00
