IT SECURITY MANAGEMENT

“Enhance your ability to manage and protect your organization\'s IT infrastructure and data from evolving security threats.”

Schedule

Date	Venue	Fees (Face-to-Face)
17 – 21 Aug 2026	Dubai, UAE	USD 3495 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

IT Security Management is critical for ensuring the confidentiality, integrity, and availability of an organization\'s information assets. This 5-day intensive training program is designed to help IT professionals understand the various aspects of managing IT security within an organization. It covers risk management, security policy development, incident management, and strategies for ensuring compliance with international security standards and regulations.

Objectives

By the end of this course, participants will be able to:

- Understand the key concepts of IT security management
- Develop and implement effective security policies and controls
- Perform risk assessments and manage security incidents
- Ensure compliance with international security standards and regulations
- Design strategies to mitigate IT security threats and vulnerabilities
