

MANAGING SUPPLY CHAIN & CONTRACTUAL RISKS

“Navigating Risks in Supply Chain and Contracts for Better Business Outcomes”

Schedule

Date	Venue	Fees (Face-to-Face)
19 – 23 Apr 2026	Kuwait	USD 3495 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

In today’s global economy, managing supply chain and contractual risks is critical for businesses to stay competitive and profitable. This 5-day course is designed for professionals responsible for managing supply chain operations, procurement, and contracts.

Participants will learn how to identify, assess, and mitigate risks in supply chain management and contractual agreements to ensure smooth operations and minimize disruptions. The course covers risk management strategies, contract law, supply chain disruptions, and best practices for managing risks throughout the supply chain.

Objectives

By the end of this course, participants will be able to:

- Understand the principles of risk management in supply chain and contracts.
- Identify and assess supply chain risks and contractual risks.
- Develop strategies to mitigate risks and prevent disruptions.
- Manage contract negotiations to reduce legal and financial risks.
- Optimize risk management processes for improved supply chain performance.

Why Attend

- Learn to identify and mitigate key risks in the supply chain and contracts.
- Gain a deeper understanding of the legal aspects of contracts and risk management.
- Enhance your ability to handle contract disputes and supply chain disruptions.
- Improve the efficiency of your supply chain by minimizing risks and delays.
- Equip yourself with the skills to manage and reduce contractual liabilities and financial risks.

Target Audience

This program is designed for:

- Supply chain managers and procurement professionals
- Contract managers and legal professionals
- Risk management specialists
- Operations and logistics managers
- Professionals involved in negotiating and managing supply chain contracts

Individual Benefits

Key competencies that will be developed include:

- Expertise in identifying and managing supply chain and contractual risks.
- Improved decision-making skills in managing risk in procurement and contract negotiations.
- Enhanced skills in dispute resolution and legal contract management.
- Proficiency in implementing risk mitigation strategies to ensure business continuity.
- Ability to manage supply chain disruptions effectively and reduce downtime.

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Enhanced risk management practices leading to smoother and more resilient supply chain operations.
- Improved contract negotiation skills that minimize legal and financial risks.
- Reduced operational costs through proactive risk identification and mitigation.
- Better overall management of supply chain disruptions and contractual challenges.
- Increased ability to manage risk across all stages of the supply chain, from procurement to delivery.

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings - In-depth discussions on risk management principles and best practices in supply chain and contracts.
- Case Studies - Real-world examples of risk management challenges and solutions in supply chain management.
- Workshops - Hands-on exercises for developing risk mitigation strategies and managing contract risks.
- Peer Exchange - Group discussions to share experiences and best practices for managing supply chain and contractual risks.
- Tools - Practical tools and templates for assessing and managing risks in supply chain and contract management.
