Date	Venue	Fees (Face-to-Face)
14 - 18 Sep 2026	Dubai, UAE	USD 3495 per delegate

► Available delivery methods: Face-to-Face & Online Training

## Introduction

The AI in Digital Marketing & Analytics Crash Course provides professionals with the knowledge and practical skills to harness the power of Artificial Intelligence in driving marketing success. This comprehensive training covers AI tools and techniques to optimize digital marketing efforts, enhance customer targeting, and improve campaign performance. Participants will learn to use AI-driven data analytics to create actionable insights and implement automated marketing strategies.

In today's fast-paced digital world, AI offers marketers the ability to stay ahead of the competition by making smarter, data-driven decisions. This course equips professionals with the cutting-edge AI tools and strategies necessary for developing more effective digital marketing campaigns.

## Objectives

By the end of this course, participants will be able to:

- Understand the role of AI in digital marketing and data analytics.
- Implement AI tools to analyze customer data and improve targeting.
- Use AI-powered marketing automation for personalized campaigns.
- Apply AI techniques to measure and optimize campaign performance.
- Utilize predictive analytics and machine learning for data-driven decision-making.

## Why Attend

- Learn from AI experts and digital marketing professionals.
- Gain hands-on experience with AI tools designed for marketing and analytics.
- Enhance your ability to make data-driven decisions in marketing.
- Increase ROI by automating digital marketing processes with AI.
- Stay ahead of the curve in the rapidly evolving marketing landscape.

## Target Audience

This program is designed for:

- Digital marketers and marketing managers.
- Data analysts and marketing analysts.
- Business owners looking to optimize their marketing efforts.
- Anyone interested in integrating AI into their digital marketing strategy.
- Professionals looking to enhance their skills in AI and analytics.

## Individual Benefits

Key competencies that will be developed include:

- Proficiency in using AI tools for data analysis and marketing automation.
- Enhanced understanding of customer behavior through AI-driven insights.
- Skills in optimizing marketing campaigns using AI and machine learning.
- Knowledge of predictive analytics for campaign forecasting.
- Ability to apply AI to drive better customer engagement and personalization.

## Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Improved digital marketing strategies through AI integration.
- Enhanced ability to analyze customer data for better targeting.
- Automation of marketing tasks, leading to greater efficiency.
- Optimization of marketing campaigns for better performance and ROI.
- Increased competitiveness through the use of cutting-edge AI technologies.

## Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings - Deep dive into AI tools and strategies for digital marketing.
- Case Studies - Real-world examples of AI applications in marketing campaigns.
- Workshops - Hands-on practice with AI tools for data analysis and campaign optimization.
- Peer Exchange - Group discussions on challenges and opportunities in AI marketing.
- Tools - Demonstrations of AI-powered platforms for marketing automation, analytics, and campaign management.
