

COSHH RISK ASSESSMENT & MANAGEMENT

"Master the Assessment and Management of Chemical Hazards in the Workplace"

Schedule

Date	Venue	Fees
01 - 02 Sep 2026	Dubai, UAE	USD 1995 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

The COSHH Risk Assessment & Management course is designed to provide professionals with the essential skills to assess, manage, and mitigate risks related to the exposure to hazardous substances in the workplace. Participants will gain a comprehensive understanding of the Control of Substances Hazardous to Health (COSHH) regulations and learn how to effectively implement them in their organization.

Through a combination of theoretical knowledge and practical case studies, this course will equip participants with the tools required to identify potential chemical hazards, conduct thorough risk assessments, and develop appropriate control measures to ensure a safe working environment.

Objectives

By the end of this course, participants will be able to:

- Understand the principles and regulations behind COSHH and its implementation in the workplace.
- Identify hazardous substances and assess their associated risks.
- Develop effective risk assessments for chemical hazards.
- Implement control measures and protective strategies for the safe handling of hazardous substances.
- Ensure compliance with regulatory requirements related to hazardous chemicals in the workplace.

Why Attend

- Enhance your understanding of COSHH regulations and how to apply them effectively.
- Learn to identify, assess, and control the risks associated with hazardous chemicals in the workplace.
- Develop practical risk assessments and strategies for ensuring workplace safety.
- Improve organizational safety standards and minimize the risk of health issues related to chemical exposure.
- Stay compliant with legal requirements and best practices in occupational health and safety.

Target Audience

This program is designed for:

- Health, safety, and environmental (HSE) managers and professionals.
- Risk assessment specialists and occupational health practitioners.
- Managers and supervisors responsible for handling hazardous substances in the workplace.
- Safety officers and employees involved in chemical handling and safety management.
- Anyone looking to enhance their knowledge of COSHH risk assessments and management.

Individual Benefits

Key competencies that will be developed include:

- A comprehensive understanding of COSHH regulations and their practical application.
- Skills in identifying and assessing chemical hazards in the workplace.
- Proficiency in developing and implementing effective risk assessments.
- Knowledge of control measures and protective strategies for hazardous substances.
- Confidence in managing workplace safety and ensuring regulatory compliance.

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- The ability to conduct thorough risk assessments for hazardous substances.
- A structured approach to implementing COSHH regulations in the workplace.
- Improved safety management systems that reduce the risk of health-related incidents.
- Compliance with industry regulations and reduced liability for the organization.
- Enhanced awareness of chemical safety, improving overall organizational health standards.

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings - In-depth discussion on COSHH regulations and risk assessment methodologies.
- Case Studies - Analysis of real-world scenarios and how effective risk management has been applied.
- Workshops - Hands-on activities to conduct risk assessments and develop management strategies for hazardous substances.
- Peer Exchange - Group discussions and sharing of best practices in managing chemical risks.
- Tools - Templates for conducting COSHH assessments and control measures

Course Outline

Detailed 2-Day Course Outline

Training Hours: 7:30 AM – 3:30 PM **Daily Format:** 3–4 Learning Modules | Coffee breaks: 09:30 & 11:15 | Lunch Buffet: 01:00 – 02:00

Day 1: Introduction to COSHH and Risk Assessment Principles

- Module 1: Overview of COSHH (07:30 – 09:30)
- Introduction to COSHH regulations and their importance in health and safety management.
- Key principles of hazard identification and risk assessment.
- Legal and regulatory frameworks around hazardous substances in the workplace.

Module 2: Hazardous Substances in the Workplace (09:30 – 11:30)

- Identifying hazardous substances in various industries.
- Understanding the classification of chemicals and materials.
- Assessing the risks associated with exposure to chemical hazards.

Day 2: Conducting Risk Assessments and Control Measures

Module 3: Risk Assessment Process (07:30 – 09:30)

- Detailed process of conducting a risk assessment under COSHH.
- Tools and methods for assessing risks associated with chemical exposure.
- Practical exercises on conducting risk assessments.

Module 4: Implementing Control Measures (09:30 – 11:30)

- Developing and implementing control measures for hazardous substances.
- Protective strategies: engineering controls, PPE, and administrative controls.
- Creating an action plan for managing hazardous substances in the workplace.

Certification

Participants will receive a Certificate of Completion in COSHH Risk Assessment & Management, validating their ability to conduct risk assessments and manage hazardous substances in the workplace effectively.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation’s unique goals.
