

CONFINED SPACE ASSESSOR TRAINING COURSE

“Assessing Confined Spaces for Entry, Risk, and Compliance with Safety Standards”

Schedule

Date	Venue	Fees (Online)
02 Jun 2026	Online (Live Virtual)	USD 450 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

Working in or around confined spaces presents serious hazards including toxic atmospheres, engulfment, and restricted access. Accurate assessment of these environments is critical to ensure compliance, protect lives, and facilitate safe work practices.

This focused 1-day online training equips participants with the knowledge and tools needed to identify confined spaces, assess associated risks, and determine appropriate entry and rescue procedures. Participants will explore relevant legislation, hazard categories, control measures, and documentation techniques aligned with international safety standards.

Objectives

By the end of this course, participants will be able to:

- Identify confined spaces according to regulatory definitions
- Conduct structured hazard assessments for confined space entry
- Determine appropriate control and monitoring requirements
- Complete confined space entry permits and risk assessment forms
- Support emergency and rescue planning for confined space operations

Why Attend

- Comply with legal requirements for confined space assessment and entry
- Protect workers from oxygen deficiency, toxic gases, and physical hazards
- Enhance confidence in issuing entry permits and authorizing access
- Reduce risk of injury or fatality through better planning and controls
- Gain recognized credentials and demonstrate safety competency

Target Audience

This program is designed for:

- Safety officers and HSE personnel
- Permit issuers and site supervisors
- Maintenance and operations staff
- Rescue team leaders and emergency coordinators
- Contractors and facility engineers involved in confined space work

Individual Benefits

Key competencies that will be developed include:

- Confined space identification and classification
- Understanding of gas detection and atmospheric testing
- Execution of formal risk assessments
- Use of personal protective equipment (PPE) and ventilation tools
- Permit-to-work process knowledge

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Improved risk control and regulatory compliance
- Reduction in incidents related to confined space entry
- Stronger hazard communication and documentation practices
- Support for emergency preparedness and response protocols
- Increased assurance during audits and inspections

Instructional Methodology

The course follows a blended learning approach combining theory with applied knowledge:

- Instructor-Led Briefings – Key definitions, legal context, risk categories
- Visual Demonstrations – Equipment use, testing methods, hazard examples
- Case Examples – Incident reviews and lessons learned
- Interactive Q&A – Real-world problem solving and clarification
- Digital Templates – Risk assessment forms, permit-to-work samples

Course Outline

1-Day Course Agenda | Delivery Format: Online (Live) | Platform: Zoom, WebEx or Microsoft Teams

- **Module 1: Introduction to Confined Spaces** • Definitions and classifications under HSE and OSHA standards • Typical confined space examples and identification criteria
- **Module 2: Hazard Assessment and Risk Identification** • Atmospheric, mechanical, biological, and physical hazards • Risk rating and control hierarchy
- **Module 3: Control Measures and Permit-to-Work**
 - Engineering and procedural controls • Documentation and entry authorization
- **Module 4: Emergency Planning and Assessor Role** • Rescue procedures, equipment, and communication • Assessor responsibilities and reporting

Certification

Participants will receive a Certificate of Completion in Confined Space Assessor Training, validating their ability to assess, document, and authorize confined space entries in accordance with international safety guidelines and risk management protocols.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation’s unique goals.
