

PROJECT RISK MANAGEMENT: PREPARATION FOR RISK MANAGEMENT PROFESSIONAL (PMI-RMP)®

"Master the Tools, Techniques, and Knowledge Areas Required to Manage Project Risk and Pass the PMI-RMP® Exam"

Schedule

| Date | Venue | Fees (Face-to-Face) |
|------------------|------------|-----------------------|
| 15 - 19 Jun 2026 | Dubai, UAE | USD 3495 per delegate |

► Available delivery methods: Face-to-Face & Online Training

Introduction

In an increasingly complex project environment, effective risk management is critical to achieving project success. The Project Management Institute's Risk Management Professional (PMI-RMP)® certification validates an individual's ability to identify, assess, and manage project risks efficiently and strategically.

This 5-day intensive course prepares participants to pass the PMI-RMP® certification exam while building practical skills in project risk planning, analysis, and response development. Aligned with PMI's "Practice Standard for Project Risk Management" and the PMBOK® Guide, the course blends theory, mock exams, and real-world applications to ensure readiness for certification and improved project performance.

Objectives

By the end of this course, participants will be able to:

- Understand PMI-RMP® exam content, format, and application process
- Define and distinguish between individual and overall project risks
- Develop comprehensive risk management plans and policies
- Apply qualitative and quantitative risk analysis techniques
- Design and implement effective risk response strategies
- Prepare confidently to pass the PMI-RMP® certification exam

Why Attend

- Structured preparation for the globally recognized PMI-RMP® credential
- Gain advanced skills in project risk identification, analysis, and response
- Access mock tests, quizzes, and exam simulation tools
- Enhance project performance by integrating risk management practices
- Learn from certified PMI-RMP® instructors with real project experience

Target Audience

This program is designed for:

- Project managers and risk professionals seeking PMI-RMP® certification
- PMO leaders and team members responsible for project governance
- Project engineers, planners, and controllers
- Business analysts and consultants in project environments
- Professionals involved in high-risk or complex project execution

Individual Benefits

This program is designed for:

- Project managers and risk professionals seeking PMI-RMP® certification
- PMO leaders and team members responsible for project governance
- Project engineers, planners, and controllers
- Business analysts and consultants in project environments
- Professionals involved in high-risk or complex project execution

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Enhanced risk management capability across project portfolios
- Improved stakeholder confidence through better risk communication
- Stronger compliance with PMI standards and governance models
- Reduction in project cost overruns and schedule delays
- Support for project teams in building a risk-aware culture

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings - PMI-RMP® exam outline, domain focus areas
- Case Studies - Real project risk events and management responses
- Workshops - Risk registers, assessment matrices, response planning
- Peer Exchange - Role plays and group discussion on risk scenarios
- Tools - Exam simulations, practice questions, flashcards, templates

Course Outline

Training Hours: 7:30 AM - 3:30 PM Daily Format: 3-4 Learning Modules | Coffee breaks: 09:30 & 11:15 | Lunch Buffet: 01:00 - 02:00

Day 1: Introduction to Risk Management and PMI-RMP® Exam Overview

- Module 1: Understanding Risk and Uncertainty in Projects (07:30 - 09:30) • Definitions, risk vs. issue, project risk lifecycle
- Module 2: Overview of PMI-RMP® Domains and Exam Content (09:45 - 11:15) • Performance domains, weightage, application process
- Module 3: Risk Management Planning (11:30 - 01:00) • Risk management plan components, tools, and templates
- Module 4: Workshop - Create a Risk Management Plan (02:00 - 03:30) • Apply PMI structure to sample project scenario

Day 2: Risk Identification and Qualitative Analysis

- Module 5: Tools for Risk Identification (07:30 - 09:30) • Interviews, checklists, SWOT, assumptions analysis
- Module 6: Creating and Managing Risk Registers (09:45 - 11:15) • Documenting risk events, triggers, owners, and categories
- Module 7: Qualitative Risk Assessment Techniques (11:30 - 01:00) • Probability and impact matrix, urgency and proximity
- Module 8: Workshop - Populate and Prioritize a Risk Register (02:00 - 03:30) • Scoring, ranking, and categorizing project risks

Day 3: Quantitative Risk Analysis

- Module 9: Quantitative Techniques Overview (07:30 - 09:30) • Decision trees, EMV, sensitivity analysis
- Module 10: Monte Carlo Simulations and Risk Modelling (09:45 - 11:15) • Inputs, interpretation, and impact on decision-making
- Module 11: Tools and Software for Quantitative Analysis (11:30 - 01:00) • Risk modeling platforms and Excel techniques
- Module 12: Workshop - Simulate Risk Scenarios (02:00 - 03:30) • Build a simple Monte Carlo risk model

Day 4: Risk Response, Monitoring and Communication

- Module 13: Designing Risk Response Strategies (07:30 - 09:30) • Avoidance, mitigation, transfer, acceptance, escalation
- Module 14: Implementing Risk Responses (09:45 - 11:15) • Action plans, ownership, and contingency planning
- Module 15: Monitoring and Controlling Risk (11:30 - 01:00) • Tracking residual risk, audits, reserve analysis
- Module 16: Workshop - Build a Risk Response Plan (02:00 - 03:30) • Assign actions and evaluate effectiveness

Day 5: Exam Preparation and Final Review

- Module 17: PMI-RMP® Exam Strategy and Best Practices (07:30 - 09:30) • Time management, question types, common pitfalls
- Module 18: Full-Length Mock Exam (09:45 - 11:15) • Simulated PMI-RMP® test with review
- Module 19: Lessons Learned and Final Tips (11:30 - 01:00) • Certification next steps, ongoing learning, PMI policies
- Module 20: Final Workshop - Personal Study Plan (02:00 - 03:30) • Tailored exam prep plan and timeline

Certification

Participants will receive a Certificate of Completion in Project Risk Management: Preparation for PMI-RMP®, confirming their readiness to take the PMI-RMP® exam and apply project risk management principles aligned with PMI's global standards.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation's unique goals.

In-House / Customized Training
