AGILE PROJECT MANAGEMENT

"Delivering Flexible, Collaborative, and Customer-Focused Projects in Rapid Environments"

Schedule

Date	Venue	Fees (Face-to-Face)
22 – 26 Jun 2026	Kuala Lumpur, Malaysia	USD 3495 per delegate

► **Available delivery methods:** Face-to-Face & Online Training, In-House Training

Introduction

In today's dynamic business environment, traditional project management approaches often fall short in responding to rapid changes and stakeholder needs. Agile Project Management (Agile PM) offers a flexible, iterative framework focused on collaboration, customer feedback, and incremental delivery. This hands-on course empowers professionals to lead Agile initiatives that deliver faster, reduce risk, and increase business value.

Participants will explore Agile principles, methodologies like Scrum and Kanban, and best practices in Agile planning, team management, and delivery. Through simulations and case studies, they will gain the confidence to lead Agile projects in both IT and non-IT domains.

Objectives

By the end of this course, participants will be able to:

- Understand Agile principles, values, and methodologies (Scrum, Kanban, XP)
- Lead Agile projects from initiation through iterative delivery
- Manage Agile teams using roles like Product Owner, Scrum Master, and Development Team
- Facilitate Agile ceremonies, including sprints, stand-ups, and retrospectives
- Use Agile planning tools such as user stories, backlogs, and burn-down charts
