Introduction

The Portfolio, Programme, and Project Management Maturity Model (P3M3) provides a comprehensive framework for assessing and improving organizational project delivery capability. It enables organizations to identify weaknesses, benchmark against world-class standards, and drive sustainable improvements across all levels of project governance.

This intensive 5-day course empowers professionals to conduct P3M3 assessments, interpret results, and develop targeted maturity improvement roadmaps. It also explores how to integrate maturity insights into strategic decision-making, resource optimization, and performance enhancement across portfolios, programmes, and projects.

Objectives

By the end of this course, participants will be able to:

- Understand the P3M3 framework and its seven process perspectives
- Conduct baseline maturity assessments across P3, PgM, and PfM domains
- Interpret assessment findings and identify performance gaps
- Develop improvement roadmaps and embed governance enhancements
- Support organizational transformation through capability development

Why Attend

- Gain structured insight into organizational project management maturity
- Learn to apply P3M3 assessments for strategic planning and benchmarking
- Drive business value through targeted capability enhancements
