EFFECTIVE SUPPLY CHAIN, PROCUREMENT & STOREROOM MANAGEMENT

"Integrating Supply, Purchasing & Inventory Strategies for Operational Excellence"

Schedule

Date	Venue	Fees (Face-to-Face)
05 – 09 Jul 2026	Doha, Qatar	USD 3495 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

Efficient supply chain, procurement, and storeroom management are essential for controlling costs, ensuring availability, and enhancing operational resilience. Misaligned processes between procurement, inventory, and logistics functions can lead to delays, overstocking, or material shortages that disrupt production and service delivery.

This comprehensive 5-day course provides participants with the frameworks and tools to optimize the end-to-end supply chain—from supplier selection and contract management to inventory control and warehouse operations. It emphasizes best practices, modern technologies, and integrated strategies that drive efficiency and transparency.

Objectives

By the end of this course, participants will be able to:

- Understand and manage the key components of the supply chain lifecycle
- Optimize procurement planning, sourcing, and supplier evaluation
- Implement inventory control systems and performance indicators
- Improve storeroom layout, storage, and materials handling practices
- Align supply, procurement, and inventory functions for better coordination
