

LEADERSHIP SKILLS FOR THE MODERN-DAY LEADER - LEADERSHIP IN THE AGE OF AI AND TECHNOLOGY

“Empowering Leaders to Thrive in a Digitally Disrupted and AI-Driven World”

Schedule

Date	Venue	Fees (Face-to-Face)
01 - 03 Jul 2026	Dubai, UAE	USD 2495 per delegate

Introduction

Technology and artificial intelligence are rapidly transforming industries, requiring leaders to adapt their mindset, tools, and behaviors. Traditional leadership models no longer suffice—leaders must be digitally fluent, emotionally intelligent, and innovation-driven to succeed in today’s complex, AI-enhanced workplace.

This course equips forward-thinking leaders with the insights, frameworks, and skills to lead confidently in the digital age. Participants will explore how AI is reshaping decision-making, team dynamics, ethics, and strategy, and will develop the leadership agility to respond with resilience, empathy, and vision.

Objectives

By the end of this course, participants will be able to:

- Understand how AI and emerging technologies are reshaping leadership expectations
- Develop digital fluency and lead data-informed decision-making
- Apply emotional intelligence and human-centric leadership in tech-rich environments
- Navigate ethical dilemmas and bias in AI applications
- Drive innovation and organizational agility amid constant change

Why Attend

- Gain future-ready leadership skills to stay relevant and effective
- Learn how to balance technological tools with human values
- Understand how AI influences organizational behavior and communication
- Improve strategic thinking in fast-changing, tech-centric industries
- Explore case studies of digital transformation and leadership innovation

Target Audience

This program is designed for:

- Senior leaders and mid-level managers in digital or transforming organizations
- Project and innovation team leaders
- HR and L&D professionals involved in leadership development
- Strategy and transformation officers
- Professionals preparing for leadership roles in tech-driven environments

Individual Benefits

Key competencies that will be developed include:

- AI literacy and its application in leadership contexts
- Adaptive leadership and change management
- Human-centered design thinking and innovation
- Critical thinking and ethical decision-making
- Communication and collaboration in hybrid/digital teams

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Enhanced leadership alignment with digital strategy and innovation
- Improved employee engagement in technologically evolving environments
- Strengthened ethical and responsible AI adoption
- Greater resilience during transformation initiatives
- Increased collaboration between human and machine capabilities

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings - Digital leadership models and technology trends
- Case Studies - Tech-driven leadership in global organizations
- Workshops - Self-assessments, ethical scenarios, digital tools
- Peer Exchange - Group dialogue on transformation experiences
- Tools - Leadership frameworks, AI adoption maps, communication planners

Course Outline

Training Hours: 7:30 AM - 3:30 PM Daily Format: 3-4 Learning Modules | Coffee breaks: 09:30 & 11:15 | Lunch Buffet: 01:00 - 02:00
