PECB CERTIFIED ISO 27001 - INFORMATION SECURITY MANAGEMENT SYSTEM (ISMS)

"Build, Implement, and Maintain a Robust Information Security Management System Aligned with ISO/IEC 27001"

Schedule

Date	Venue	Fees (Face-to-Face)
06 – 10 Jul 2026	Dubai - UAE	USD 3495 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

Information is a strategic asset and ensuring its confidentiality, integrity, and availability is vital to business success. ISO/IEC 27001 is the globally recognized standard for establishing, implementing, maintaining, and continually improving an Information Security Management System (ISMS).

This intensive 5-day training equips participants with a thorough understanding of ISO/IEC 27001 principles, controls, and best practices. Through practical case studies and real-world applications, participants will gain the skills needed to protect organizational data and infrastructure, ensure regulatory compliance, and support the development of a secure organizational culture.

Objectives

By the end of this course, participants will be able to:

- Understand the structure, purpose, and requirements of ISO/IEC 27001.
- Plan, implement, and manage an effective ISMS tailored to organizational needs.
- Perform risk assessments and apply appropriate security controls.
- Monitor and measure ISMS effectiveness through audits and continual improvement.
- Prepare the organization for ISO/IEC 27001 certification and compliance.

Why Attend

- Acquire globally recognized certification from PECB in ISO 27001 ISMS.
- Learn to mitigate information security risks effectively.
- Gain hands-on experience in building an ISMS from scratch.
- Strengthen organizational compliance with international standards.
- Increase your career potential in information security management

Target Audience

This program is designed for:

- Information security managers and officers
- IT professionals responsible for managing information risks
- Risk and compliance officers
- Internal auditors and consultants
- Individuals seeking ISO 27001 certification and implementation skills

Individual Benefits

Key competencies that will be developed include:

- In-depth knowledge of ISO/IEC 27001:2022 structure and requirements
- Risk management and asset classification skills
- Development and implementation of security controls and policies
- Internal audit preparation and management review techniques
- Continual improvement and corrective action planning

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Improved data protection and information governance
- Compliance with global security standards and regulations
- Enhanced risk management and business continuity readiness
- Reduced likelihood of security breaches and data loss
- Stronger customer and stakeholder trust

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings – Comprehensive exploration of ISO/IEC 27001 clauses, Annex A controls, and risk-based thinking
- Case Studies – Examples of successful ISMS implementation and audit findings
- Workshops – Practical sessions to develop risk assessments, Statement of Applicability, and security policies
- Peer Exchange – Collaborative exercises to share implementation experiences and lessons
- Tools – Templates for risk registers, control implementation plans, and ISMS documentation

Course Outline

Detailed 5-Day Course Outline

Training Hours: 7:30 AM – 3:30 PM **Daily Format:** 3–4 Learning Modules | Coffee breaks: 09:30 & 11:15 | Lunch Buffet: 01:00 – 02:00

Day 1: Introduction to ISO/IEC 27001 and ISMS Foundations

- Module 1: Understanding ISO/IEC 27001 and the ISMS Framework (07:30 – 09:30)
- Overview of ISO/IEC 27001 and its importance
- Key definitions, concepts, and structure of the standard
- Benefits of an effective ISMS for organizations
- Module 2: Information Security Context and Leadership (09:45 – 11:15)
- Determining internal and external issues
- Leadership commitment and organizational roles
- Defining the ISMS scope and objectives
- Module 3: Planning and Risk-Based Thinking (11:30 – 01:00)
- Information security risk assessment methodology
- Risk identification, analysis, and treatment
- Planning actions to address risks and opportunities

Day 2: ISMS Implementation and Control Measures

- Module 1: Support and Resource Management (07:30 – 09:30)
- Awareness, communication, and documented information
- Resource allocation and competency requirements
- Managing ISMS documentation
- Module 2: Operational Planning and Control (09:45 – 11:15)
- Change management and outsourced processes
- Operational procedures and implementation of controls
- Incident management processes
- Module 3: Annex A Controls Overview (11:30 – 01:00)
- Categories and control domains
- Control implementation and justification
- Statement of Applicability (SoA) development

Day 3: Performance Evaluation and Auditing

- Module 1: Monitoring, Measurement, Analysis (07:30 – 09:30)
- Key performance indicators (KPIs) for ISMS
- Metrics and methods of measurement
- Internal and external reporting
- Module 2: Internal Audit Process (09:45 – 11:15)
- Audit planning, execution, and reporting
- Auditor roles and competencies
- Handling audit nonconformities
- Module 3: Management Review and Continuous Improvement (11:30 – 01:00)
- Inputs and outputs of the management review
- Continual improvement strategies
-

Corrective action and lessons learned

Day 4: ISMS Documentation and Certification Readiness

- Module 1: Developing ISMS Policies and Procedures (07:30 – 09:30)
- Document hierarchy and control structure
- Creating and maintaining ISMS documentation
- Roles and responsibilities documentation
- Module 2: Certification Process and Requirements (09:45 – 11:15)
- Certification lifecycle and audit stages
- Preparing for Stage 1 and Stage 2 audits
- Working with certification bodies
- Module 3: Integrating ISO/IEC 27001 with Other Standards (11:30 – 01:00)
- Synergies with ISO 27002, ISO 22301, and ISO 9001
- Integrated management systems (IMS)
- Benefits of unified compliance efforts

Day 5: Exam Preparation and Final Review

- Module 1: Exam Overview and Strategy (07:30 – 09:30)
- Understanding exam structure and requirements
- Sample questions and common pitfalls
- Test-taking techniques
- Module 2: Mock Exam and Group Feedback (09:45 – 11:15)
- Practice exam session
- Peer feedback and discussion
- Trainer review of answers
- Module 3: Final Clarifications and Wrap-up (11:30 – 01:00)
- Summary of key concepts
- Participant Q&A session
- Course conclusion and evaluation

Certification

Participants will receive a PECB Certificate of Completion in ISO/IEC 27001 Information Security Management System (ISMS), confirming their knowledge and skills in establishing, implementing, and managing an ISMS in accordance with ISO/IEC 27001:2022.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation’s unique goals.
