

AGILE AUDITING

"Transform Internal Audit with Speed, Flexibility, and Value-Driven Insights"

Schedule

Venue (InHouse)	Fees
At Your Organization Premises	Ask For The Quotation

► **Available delivery methods:** In-House Training

Introduction

Agile Auditing represents a modern, flexible approach to internal auditing that focuses on iterative planning, rapid feedback loops, and collaboration across stakeholders. This course introduces participants to agile principles adapted for audit functions, helping audit teams become more responsive to emerging risks and deliver greater value to the organization. Participants will learn how to design, plan, and execute agile audit engagements while integrating continuous assurance techniques and improving audit cycle times.

Objectives

By the end of this course, participants will be able to:

- Understand the fundamentals and principles of Agile methodology
- Apply Agile practices in planning and executing internal audits
- Develop and manage audit backlogs, sprints, and stand-ups
- Increase responsiveness to changing business risks
- Deliver real-time, value-focused insights to stakeholders
- Embed continuous improvement in the audit function

Why Attend

- Learn how to make your audit team faster and more adaptive
- Reduce audit fatigue across the business with lighter engagements
- Drive higher stakeholder satisfaction through collaborative audits
- Stay aligned with evolving risk environments and business priorities
- Gain tools to transform your audit strategy, tools, and mindset

Target Audience

- Internal Auditors and Audit Managers
- Risk and Compliance Professionals
- Chief Audit Executives (CAEs)
- Business Unit Auditors and Process Auditors
- Professionals seeking to modernize their audit approach

Individual Benefits

- Upgrade your audit capabilities with agile tools and frameworks
- Reduce audit cycle time and increase your audit value proposition
- Learn new facilitation, backlog, and sprint management techniques
- Enhance credibility and impact in dynamic audit environments

Organizational Benefits

- A more agile, responsive audit function
- Reduced cost and time of audit delivery
- Better integration with risk and business strategy
- Real-time visibility into audit progress and outcomes
- Higher ROI on audit resources and technology

Instructional Methodology

- Real-world case studies and Agile audit simulations
- Hands-on exercises on sprint planning, backlog management, and stand-ups
- Group workshops, role-playing, and peer collaboration
- Visual tools: Kanban boards, burndown charts, Agile dashboards
- Templates, frameworks, and audit strategy blueprints
