Introduction

This comprehensive course is designed to equip participants with the skills and confidence to respond quickly and effectively using first attack firefighting equipment such as portable extinguishers, fire hose reels, and fire blankets. Early response can contain or eliminate fire hazards before escalation, and this training focuses on empowering individuals with that first-line defense capability.

Objectives

Participants will learn to:

- Identify types and applications of first attack firefighting equipment
- Select the appropriate equipment for various classes of fires
- Use extinguishers and hose reels effectively and safely
- Perform basic checks and routine inspections
- Respond calmly and efficiently to incipient stage fires
