

PROVIDE ADVANCED RESUSCITATION

“Respond with Precision. Save Lives with Confidence.”

Schedule

Venue	Fees
In-House	ASK FOR THE QUOTATION

► Available delivery methods: In-House Training

Introduction

This intensive, hands-on course equips participants with the advanced knowledge and practical skills required to perform advanced resuscitation techniques in high-risk, time-critical environments. It focuses on using advanced life support (ALS) equipment and techniques, including airway management, oxygen therapy, and defibrillation, in line with international guidelines.

Objectives

- By the end of this training, participants will be able to:
- Assess and manage cardiac and respiratory arrest scenarios
 - Perform advanced airway management, including oropharyngeal and supraglottic devices
 - Administer oxygen and use suction apparatus
 - Operate automated external defibrillators (AEDs) and manual defibrillators
 - Perform effective team-based CPR and coordinate resuscitation efforts
 - Understand post-resuscitation protocols and patient handover

Why Attend

- Gain confidence to act in critical medical emergencies
- Learn life-saving interventions beyond basic first aid
- Be compliant with workplace and national health safety regulations
- Improve your readiness for emergency medical roles in high-risk sectors

Target Audience

- Emergency responders
- Fire and rescue personnel
- Health and safety officers
- Paramedics and advanced first aiders
- Mining, oil & gas, marine, and aviation industry staff

Individual Benefits

- Advance your emergency response credentials
- Build competence in managing life-threatening events
- Learn teamwork, leadership, and real-time decision-making
- Earn a recognized certification in Advanced Resuscitation

Organizational Benefits

- Improve on-site emergency response capability
- Ensure regulatory compliance with advanced first aid standards
- Enhance workforce readiness in high-risk operations
- Reduce response time and improve survival outcomes

Instructional Methodology

- Instructor-led theory with real-case examples
- Hands-on training with CPR manikins, oxygen units, and defibrillators
- Practical scenarios with teamwork drills
- Peer review and instructor feedback
- Knowledge check quizzes and final performance evaluation

Course Outline

DETAILED 5-DAY COURSE OUTLINE (CUSTOMIZABLE)

Training Hours: 7:30 AM – 3:30 PM **Daily Format:** 3–4 Learning Modules | Coffee Breaks: 09:30 & 11:15 | Lunch Buffet: 01:00 – 02:00

Day 1: Principles of Advanced Resuscitation

- **Module 1:** Overview of Cardiac Arrest and Resuscitation Chains (07:30 – 09:30)
- **Module 2:** Advanced Resuscitation Guidelines & Legal Considerations (09:45 – 11:15)
- **Module 3:** Scene Safety, DRSABCD Protocol & Handover (11:30 – 01:00)
- **Module 4:** Workshop – Initial Assessment & Team Coordination (02:00 – 03:30)

Day 2: Airway Management & Oxygen Use

- **Module 1:** Airway Obstruction – Recognition and Management (07:30 – 09:30)
- **Module 2:** Use of Oropharyngeal and Nasopharyngeal Airways (09:45 – 11:15)
- **Module 3:** Oxygen Delivery Devices and Administration (11:30 – 01:00)
- **Module 4:** Practical Session – Oxygen Setup and Use (02:00 – 03:30)

Day 3: Defibrillation and Cardiac Rhythm Recognition

- **Module 1:** Introduction to AED and Manual Defibrillator Use (07:30 – 09:30)
- **Module 2:** Cardiac Rhythms – Shockable vs Non-Shockable (09:45 – 11:15)
- **Module 3:** Defibrillator Safety and Procedure (11:30 – 01:00)
- **Module 4:** Simulation – High-Risk Cardiac Arrest Response (02:00 – 03:30)

Day 4: Team-Based CPR and Advanced Life Support

- **Module 1:** Two-Rescuer and Team-Based CPR (07:30 – 09:30)
- **Module 2:** Bag-Valve-Mask (BVM) Ventilation Techniques (09:45 – 11:15)
- **Module 3:** Advanced Resuscitation Algorithm Review (11:30 – 01:00)
- **Module 4:** Full-Scale Simulation – ALS Scenario Drill (02:00 – 03:30)

Day 5: Post-Resuscitation and Assessment

- **Module 1:** Post-ROSC Care and Vital Signs Monitoring (07:30 – 09:30)
- **Module 2:** Debriefing Techniques and Emotional Support (09:45 – 11:15)
- **Module 3:** Final Assessment – Skills Test and Theory Quiz (11:30 – 01:00)
- **Module 4:** Certification Ceremony and Course Wrap-Up (02:00 – 03:30)

Certification

Participants will receive a **Certificate of Competency in Advanced Resuscitation**, valid for 2 years, aligned with international emergency medical response standards.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation’s unique goals.
