Introduction

The Fire & Rescue Emergency Responder course is an intensive, accredited program designed to equip participants with the core competencies, physical skills, and technical knowledge needed to respond to a wide range of emergency situations. From structural fires and hazardous material incidents to vehicle crashes and confined space rescues, this course focuses on developing operational readiness under realistic, high-pressure conditions.

Participants will receive hands-on training using real-life scenarios, modern firefighting equipment, and rescue tools to master safety, response, and teamwork. This course meets global industrial and emergency response standards and is ideal for those seeking to perform operational roles in fire and rescue teams, including within high-risk industries such as oil and gas, mining, and industrial sites.

Objectives

By the end of this course, participants will be able to:

- Demonstrate operational readiness and response to urban, rural, and industrial fire emergencies
- Use first attack firefighting equipment and manage breathing apparatus
- Operate safely during hazardous material incidents and confined space rescues
- Apply incident management techniques, including briefings, debriefings, and crew leadership
- Execute search and rescue procedures and respond to road crash and aviation emergencies
- Understand WHS policies, risk assessment, and operational safety

Why Attend

- Accredited certification recognized by emergency response and industrial bodies
- Realistic hands-on training with live fire and emergency simulation scenarios
- Enhances your qualifications for roles in industrial emergency response teams
- Learn from certified fire and rescue trainers with real-world experience
- Suitable for both new responders and experienced personnel refreshing their skills

Target Audience

This course is ideal for:

- Emergency response team members (ERT/ESO)
- Industrial fire service personnel
- Security & safety officers in oil & gas, mining, construction, marine, and aviation sectors
- First responders & rescue team supervisors
- Individuals seeking careers in emergency response or firefighting

Individual Benefits

Participants will:

- Gain hands-on competence in operating rescue and firefighting equipment
- Develop physical readiness and situational awareness for emergencies
- Build confidence in leading teams under pressure
- Receive an accredited certification boosting professional credentials

Organizational Benefits

Your company will benefit by:

- Improving workplace emergency preparedness and team efficiency
- Reducing downtime and losses in crisis situations
- Meeting national and international compliance and safety standards
- Having trained staff who can immediately respond to incidents onsite

Instructional Methodology

This course uses a blended approach including:

- Live Simulations – Realistic fire, rescue, and emergency scenarios
- Drills & Exercises – Hands-on use of firefighting tools, PPE, and communication systems
- Interactive Workshops – Risk assessments, command & control, crew briefings
- Peer Learning – Structured group discussion and team response exercises
- Competency Assessments – Based on performance in live exercises and evaluations

Course Outline

Detailed 5-Day Course Outline (Customizable)

Training Hours: 7:30 AM – 3:30 PM **Daily Format:** 3–4 Learning Modules | Coffee Breaks: 09:30 & 11:15 | Lunch Buffet: 01:00 – 02:00

Day 1: Fundamentals of Fire Response & Safety

- Module 1: Introduction to Emergency Response Roles & Legal Frameworks (07:30 – 09:30)
- Module 2: Use of PPE & Breathing Apparatus (09:45 – 11:15)
- Module 3: First Attack Firefighting & Fire Extinguishers (11:30 – 01:00)
- Module 4: Live Fire Simulation Drill & Equipment Inspection (02:00 – 03:30)

Day 2: Communication, Teamwork, and Rescue Tools

- Module 1: Operate Communications Equipment During Emergencies (07:30 – 09:30)
- Module 2: Conduct Briefings & Crew Coordination (09:45 – 11:15)
- Module 3: Use and Maintenance of Rescue Equipment (11:30 – 01:00)
- Module 4: Search & Rescue Techniques (02:00 – 03:30)

Day 3: Emergency Scene Management & Incident Response

- Module 1: Incident Command Systems & Risk Assessment (07:30 – 09:30)
- Module 2: Hazardous Material Awareness & Decontamination (09:45 – 11:15)
- Module 3: Confined Space & Road Crash Rescue Operations (11:30 – 01:00)
- Module 4: Simulation Exercise – Vehicle Extrication Drill (02:00 – 03:30)

Day 4: Advanced Emergency Situations

- Module 1: Aviation Incident & Structural Fire Response (07:30 – 09:30)
- Module 2: Wildfire & Rural Fire Management (09:45 – 11:15)
- Module 3: Response to Workplace Emergencies & Safety Leadership (11:30 – 01:00)
- Module 4: Full-Scenario Drill – Multi-Hazard Incident Response (02:00 – 03:30)

Day 5: Final Evaluation, Leadership & Certification

- Module 1: Leadership in Emergency Operations & Peer Review (07:30 – 09:30)
- Module 2: Final Assessment (Written & Practical) (09:45 – 11:15)
- Module 3: Crew Debriefing, Feedback & Lessons Learned (11:30 – 01:00)
- Module 4: Certification Ceremony & Course Wrap-Up (02:00 – 03:30)

Certification

Participants will receive an Accredited Certificate in Fire & Rescue Emergency Response, endorsed by recognized safety and emergency training authorities. The certificate validates practical skills in emergency management, response leadership, and fire operations, compliant with global industrial and fire safety standards.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation's unique goals.
