► **Available delivery methods:** In-House Training

Introduction

This course equips participants with the skills and knowledge required to identify, assess, and document environmental and heritage concerns in operational settings. It is essential for industries such as mining, construction, energy, and infrastructure development—where projects intersect with sensitive ecosystems, cultural sites, or legally protected areas.

Participants will learn to apply regulatory frameworks, conduct impact assessments, recognize heritage site indicators, and develop mitigation strategies in line with environmental legislation and heritage protection laws.

Objectives

By the end of the course, participants will be able to:

- Identify environmental and cultural heritage values within a project site
- Recognize activities that may impact protected environmental or heritage areas
- Apply relevant legislative and regulatory requirements
- Document and report environmental and heritage risks appropriately
- Support compliance monitoring and mitigation plans

Why Attend

- Ensure compliance with environmental and heritage protection laws
- Reduce risk of legal liability and community opposition
- Enhance project approvals and reduce delays through early planning
- Gain skills applicable across various operational industries

Target Audience

This course is designed for:

- Environmental officers and site HSE staff
- Project managers and planners
- Community liaison officers
- Site supervisors and field workers
- Regulatory compliance personnel
- Engineers and construction professionals working near heritage/environmental sites

Individual Benefits

- Improve your understanding of environmental and heritage impact regulations
- Build your capacity to identify and assess at-risk natural or cultural features
- Strengthen your qualifications in environmental compliance and due diligence

Organizational Benefits

- Reduce project shutdowns or penalties due to non-compliance
- Support sustainable and ethical project planning
- Improve stakeholder relationships with indigenous and local communities
- Meet ESG (Environmental, Social, Governance) standards and audit readiness

Instructional Methodology

The course uses:

- Case studies of environmental and heritage incidents
- Field scenarios and site mapping exercises
- Legislative review workshops (EPA, EIA, Aboriginal Heritage Acts, etc.)
- Impact assessment simulation using risk matrices
- Templates for reporting and mitigation plans

Course Outline

Detailed 5-Day Course Outline (Customizable)

Training Hours: 7:30 AM – 3:30 PM **Daily Format:** 3–4 Learning Modules | Coffee Breaks: 09:30 & 11:15 | Lunch Buffet: 01:00 – 02:00

Day 1: Introduction to Environmental & Heritage Concerns

- Module 1: Overview of Environmental & Heritage Values (07:30 – 09:30)
- Module 2: Environmental Regulations and Heritage Acts (09:45 – 11:15)
- Module 3: Case Studies of Mismanagement & Consequences (11:30 – 01:00)
- Module 4: Defining Significance & Value (02:00 – 03:30)

Day 2: Environmental Assessment Techniques

- Module 1: Baseline Environmental Surveys (07:30 – 09:30)
- Module 2: Identifying Flora, Fauna, and Water Resources (09:45 – 11:15)
- Module 3: Risk Evaluation and Control Measures (11:30 – 01:00)
- Module 4: Environmental Reporting Tools (02:00 – 03:30)

Day 3: Heritage Assessment Techniques

- Module 1: Types of Heritage – Tangible and Intangible (07:30 – 09:30)
- Module 2: Indigenous and Historical Heritage Guidelines (09:45 – 11:15)
- Module 3: Site Recognition and Cultural Sensitivity (11:30 – 01:00)
- Module 4: Group Exercise – Heritage Impact Case Study (02:00 – 03:30)

Day 4: Mitigation Planning and Reporting

- Module 1: Developing Risk-Based Mitigation Plans (07:30 – 09:30)
- Module 2: Community Engagement and Consultation (09:45 – 11:15)
- Module 3: Government Reporting and Permit Requirements (11:30 – 01:00)
- Module 4: Mapping Exercise – Environmental & Heritage Interface (02:00 – 03:30)

Day 5: Monitoring, Compliance & Final Evaluation

- Module 1: Monitoring Techniques and Audit Processes (07:30 – 09:30)
- Module 2: Compliance Documentation & Chain of Custody (09:45 – 11:15)
- Module 3: Final Project – Risk Identification & Plan Presentation (11:30 – 01:00)
- Module 4: Certification Test and Closing Session (02:00 – 03:30)

Certification

Upon successful completion, participants will receive a Certificate of Competence in Environmental & Heritage Assessment, suitable for demonstrating competency in both internal compliance and contractor qualification frameworks. This certificate aligns with environmental risk management and heritage protection best practices across industrial sectors.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation's unique goals.
