WORKING & ENTER A CONFINE SPACE

"Enter Safely, Work Confidently, Exit Alive – Master Confined Space Entry Protocols."

Schedule

Venue (InHouse)	Fees
At Your Organization Premises	Ask For The Quotation

► **Available delivery methods:** In-House Training

Introduction

This comprehensive 5-day training program is designed to provide participants with the practical skills and theoretical knowledge required to safely and effectively work in or enter confined spaces. Based on international safety standards and best practices (e.g., ISO, OSHA, WHS), the course emphasizes risk assessment, atmospheric monitoring, emergency response, and legal compliance. Participants will engage in realistic simulations, hands-on exercises, and receive intensive instruction on using entry equipment, rescue techniques, and communication protocols.

Objectives

Upon successful completion, participants will be able to:

- Identify and assess hazards in confined spaces.
- Comply with legal and regulatory requirements.
- Understand the principles of risk control and entry permit systems.
- Operate and inspect confined space entry equipment (e.g., harnesses, gas detectors).
- Perform atmospheric testing using approved monitoring devices.
- Execute safe entry and emergency rescue procedures.
- Maintain effective communication with standby personnel.
- Demonstrate competence in real-world confined space scenarios.

Why Attend

Confined space work presents high-risk challenges that demand specialized training. This course ensures personnel understand how to manage those risks, preventing injury or fatality. Whether you are an entrant, observer, or supervisor, this program will enhance your safety capabilities, ensure compliance, and increase jobsite confidence.

Target Audience

This course is ideal for:

- Emergency response teams
- Maintenance and shutdown workers
- Industrial safety personnel
- Engineers, supervisors, and project managers
- Utility workers (oil & gas, power, water)
- Contractors entering tanks, pits, ducts, tunnels, silos, or vaults

Individual Benefits

- Certification to legally enter and work in confined spaces
- Enhanced personal safety and hazard awareness
- Confidence in using PPE and gas testing equipment
- Improved decision-making during emergencies
- Competitive edge for industrial and construction employment

Organizational Benefits

- Legal compliance with WHS/OSHA/ISO standards
- Reduced risk of incidents, liabilities, and fatalities
- Trained workforce capable of working independently
- Increased productivity in maintenance and shutdown operations
- Establishment of a safety-first culture

Instructional Methodology

- Instructor-led interactive presentations
- Realistic confined space entry simulations
- Group discussions and role-playing
- Equipment demonstrations and practical drills
- Daily assessments and review sessions
- Final written and practical evaluation

Course Outline

5-DAY DETAILED COURSE OUTLINE (CUSTOMIZABLE)

Training Hours: 7:30 AM – 3:30 PM **Daily Format:** 3–4 Learning Modules | Coffee Breaks: 09:30 & 11:15 | Lunch Buffet: 01:00 – 02:00

Day 1: Introduction to Confined Spaces

- Module 1: Understanding Confined Spaces (07:30 – 09:30)
- Module 2: Hazards of Confined Spaces (09:45 – 11:15)
- Module 3: Risk Assessment Principles (11:30 – 01:00)
- Module 4: Practical Workshop – Hazard Identification (02:00 – 03:30)

Day 2: Legal, Regulatory & Planning Requirements

- Module 1: Legislative Requirements & Codes of Practice (07:30 – 09:30)
- Module 2: Entry Permits and Documentation (09:45 – 11:15)
- Module 3: Site Planning & Control Measures (11:30 – 01:00)
- Module 4: Case Study – Confined Space Entry Failures (02:00 – 03:30)

Day 3: Equipment & Atmospheric Monitoring

- Module 1: PPE and Respiratory Protective Equipment (07:30 – 09:30)
- Module 2: Atmospheric Testing & Monitoring Devices (09:45 – 11:15)
- Module 3: Ventilation, Isolation, and Control Techniques (11:30 – 01:00)
- Module 4: Hands-On Equipment Demonstration (02:00 – 03:30)

Day 4: Entry, Working & Emergency Response

- Module 1: Confined Space Entry Procedures (07:30 – 09:30)
- Module 2: Communication & Standby Roles (09:45 – 11:15)
- Module 3: Emergency Response Planning (11:30 – 01:00)
- Module 4: Practical Drill – Entry and Rescue Simulation (02:00 – 03:30)

Day 5: Final Assessment & Certification

- Module 1: Theoretical Review and Recap (07:30 – 09:30)
- Module 2: Written Assessment (09:45 – 11:15)
- Module 3: Practical Assessment – Entry Procedure (11:30 – 01:00)
- Module 4: Feedback, Certification, and Wrap-Up (02:00 – 03:30)

Certification

Participants will receive a nationally/internationally recognized Certificate of Competency in Confined Space Entry & Work, valid for 2–3 years depending on jurisdiction, upon successful completion of theoretical and practical assessments.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation’s unique goals.
