Introduction

\\"Plan & Organise Work\\" is a competency-based course designed to help individuals develop the ability to effectively manage workload, set priorities, allocate resources, and coordinate with team members. Whether on a construction site, in an industrial setting, or within a project office, this skill ensures efficient workflow, reduced downtime, and improved team coordination.

Objectives

- By the end of the course, participants will be able to:
- Interpret work requirements, instructions, and schedules
 - Develop structured work plans aligned with goals and timelines
 - Identify required resources and allocate them effectively
 - Monitor progress and adjust plans to meet deadlines
 - Communicate work priorities with team members and stakeholders

Why Attend

Poor planning leads to project delays, safety risks, and cost overruns. This course equips participants with the discipline and structure to manage tasks proactively and adaptively—ensuring smooth execution and team productivity.

Target Audience

- Frontline workers and supervisors
- Project team members
- Site foremen and crew leaders
- Maintenance and logistics personnel
- Admin and planning officers

Individual Benefits

- Learn proven methods for planning and prioritization
- Improve efficiency and reduce operational stress
- Enhance your value as a reliable, organized team member
- Increase employability across industries

Organizational Benefits

- Improve team performance and resource utilization
- Enhance communication and workflow alignment
- Reduce delays and rework through better planning
- Foster a proactive and accountable workplace culture

Instructional Methodology

- Interactive classroom instruction
- Work planning simulations
- Task scheduling exercises
- Group collaboration activities
- Real-world case studies and role-play scenarios
