

FIRES IN TALL BUILDINGS

“High-rise fire risks require high-level fire strategies.”

Schedule

Venue	Fees
In-House	ASK FOR THE QUOTATION

► Available delivery methods: In-House Training

Introduction

Fires in tall buildings present unique challenges due to vertical travel distances, compartmentation complexities, occupant load, and firefighting logistics. This advanced training explores the specific fire dynamics, evacuation protocols, fire protection systems, and incident command structures required for effective high-rise fire risk management.

Objectives

- Participants completing this course will:
- Understand fire development and behavior in high-rise structures
 - Learn about passive and active fire protection systems in tall buildings
 - Master evacuation planning for multi-story occupancies
 - Analyze notable high-rise fire case studies and lessons learned
 - Apply high-rise firefighting tactics and incident command practices

Why Attend

This course is essential for fire safety professionals, emergency responders, building managers, and safety consultants involved in the design, inspection, or emergency planning for tall buildings. It ensures preparedness for complex fire scenarios where standard response protocols are insufficient.

Target Audience

- Fire Officers and Emergency Response Teams
- Safety Officers & Risk Managers in high-rise facilities
- Architects, Civil Engineers & Building Designers
- Property Managers and Facilities Supervisors
- Local Government & Urban Fire Authorities

Individual Benefits

- Develop high-rise specific fire risk awareness
- Learn to plan vertical evacuation strategies
- Gain insight into global tall-building fire incidents
- Be prepared for tower-specific command and control

Organizational Benefits

- Strengthen tall building emergency response plans
- Improve compliance with vertical fire safety standards
- Reduce risk of fatalities, liability, and asset loss
- Enhance resilience and occupant confidence

Instructional Methodology

- Expert-led lectures and technical briefings
- Fire modeling demonstrations (optional)
- Case study analysis of landmark high-rise incidents
- Tactical simulations and scenario-based learning
- Interactive Q&A with building fire specialists

Course Outline

DETAILED 5-DAY COURSE OUTLINE (CUSTOMIZABLE)

- Training Hours:** 7:30 AM – 3:30 PM
- Daily Format:** 3–4 Learning Modules | Coffee Breaks: 09:30 & 11:15 | Lunch Buffet: 01:00 – 02:00
- Day 1: Understanding Tall Building Fire Dynamics**
- Module 1:** Introduction to High-Rise Fire Risks (07:30 – 09:30)
- Module 2:** Fire Behavior in Vertical Structures (09:45 – 11:15)
- Module 3:** Smoke Movement and Stack Effect (11:30 – 01:00)
- Module 4:** Case Review – Grenfell Tower and Similar Fires (02:00 – 03:30)
- Day 2: Fire Protection Systems in Tall Buildings**
- Module 1:** Active Fire Protection (Sprinklers, Alarms) (07:30 – 09:30)
- Module 2:** Passive Fire Design (Fireproofing, Compartmentation) (09:45 – 11:15)
- Module 3:** Pressurization, Ventilation, and HVAC Impact (11:30 – 01:00)
- Module 4:** Workshop – Reviewing Tall Building Fire Plans (02:00 – 03:30)
- Day 3: Emergency Evacuation Strategies**
- Module 1:** Phased and Full Building Evacuation (07:30 – 09:30)
- Module 2:** Egress Design and Refuge Floors (09:45 – 11:15)
- Module 3:** Evacuation Challenges for Vulnerable Occupants (11:30 – 01:00)
- Module 4:** Simulation – Tall Building Evacuation Planning (02:00 – 03:30)
- Day 4: Firefighting Tactics and Operations**
- Module 1:** Challenges of High-Rise Firefighting (07:30 – 09:30)
- Module 2:** Firefighter Access, Elevators, and Water Supply (09:45 – 11:15)
- Module 3:** Incident Command in High-Rise Settings (11:30 – 01:00)
- Module 4:** Tactical Decision-Making Exercise (02:00 – 03:30)
- Day 5: Integrated Risk Management & Scenario Testing**
- Module 1:** Building Fire Safety Audits & Inspections (07:30 – 09:30)
- Module 2:** Emergency Response Coordination (09:45 – 11:15)
- Module 3:** Group Project – Design a High-Rise Fire Plan (11:30 – 01:00)
- Module 4:** Course Review, Final Assessment & Certification (02:00 – 03:30)

Certification

Upon completion, delegates will receive a **Certificate of Achievement – Fires in Tall Buildings: Risk & Response Mastery**, recognizing 35 hours of specialized professional development training.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation’s unique goals.
