► **Available delivery methods:** Face-to-Face & Online Training, In-House Training

Introduction

This course is tailored to prepare professionals for the Certified Professional Maintenance Manager (CPMM) examination offered by the Association for Facilities Engineering (AFE). Designed for current and aspiring maintenance leaders, the program focuses on key managerial competencies including maintenance planning, financial management, personnel supervision, preventative and predictive maintenance systems, and inventory control. Participants will gain strategic insight into optimizing maintenance operations to meet business objectives and ensure asset reliability.

Objectives

By the end of this course, participants will be able to:

- Master the core competencies required for the CPMM certification
- Apply best practices in maintenance planning, scheduling, and execution
- Implement cost-effective maintenance strategies and control budgets
- Supervise maintenance teams and enhance workforce productivity
- Prepare confidently for the CPMM certification examination

Why Attend

This course helps transition maintenance professionals into leadership roles by focusing on strategic, managerial, and operational skills. Certification validates your ability to manage people, processes, and performance with competence and confidence.

Target Audience

- Maintenance Supervisors and Team Leads
- Facilities and Plant Managers
- Maintenance Engineers and Coordinators
- Aspiring Maintenance Managers
- Professionals preparing for CPMM certification

Individual Benefits

- Earn the prestigious CPMM certification to boost your career
- Gain expertise in managing maintenance resources and operations
- Learn cost-saving and performance-improving strategies
- Increase leadership capability and professional credibility

Organizational Benefits

- Improve maintenance productivity, planning, and efficiency
- Reduce operational costs and extend asset lifespan
- Strengthen maintenance leadership and reliability culture
- Enhance performance reporting, team accountability, and planning

Instructional Methodology

- Interactive lectures and instructor-led case studies
- Exam-focused modules aligned with AFE's CPMM content
- Real-life scenarios and group discussions
- Practice quizzes and certification preparation exercises
- Management simulation and performance improvement plans
