

SAFELY HANDLING ASBESTOS

“Protect Lives, Prevent Exposure — Handle Asbestos with Confidence and Compliance.”

Schedule

Venue	Fees
In-House	ASK FOR THE QUOTATION

► Available delivery methods: In-House Training

Introduction

Exposure to asbestos remains a significant health hazard in many industries, particularly in construction, shipbuilding, and building maintenance. This comprehensive 5-day training course equips workers, supervisors, and safety professionals with the knowledge and skills required to safely identify, handle, and work around asbestos-containing materials (ACMs). The course complies with international safety standards and regulations and focuses on health risks, regulatory requirements, safe work practices, and emergency procedures related to asbestos.

Objectives

By the end of this training, participants will be able to:

- Understand the properties and health risks of asbestos
- Identify different types of asbestos and their common uses
- Recognize asbestos-containing materials in various environments
- Follow safe handling, removal, and disposal procedures
- Apply regulatory compliance and personal protection protocols
- Respond appropriately to accidental asbestos exposure

Why Attend

Improper handling of asbestos can cause fatal diseases such as mesothelioma and asbestosis. This course provides critical training to prevent exposure and ensure regulatory compliance, protecting workers, the public, and the environment.

Target Audience

- Construction and Demolition Workers
- Facility and Building Maintenance Staff
- Safety Officers and Environmental Engineers
- Renovation and Restoration Technicians
- Health and Safety Compliance Managers

Individual Benefits

- Learn how to work safely with or around asbestos
- Comply with legal and workplace safety requirements
- Protect personal health and prevent long-term illness
- Build qualifications for work in asbestos-related environments

Organizational Benefits

- Ensure compliance with occupational health and environmental laws
- Avoid costly fines, litigation, and project delays
- Promote a culture of workplace safety and responsibility
- Reduce liability through trained and certified staff

Instructional Methodology

- Multimedia presentations and real-world case studies
- Practical demonstrations using simulated asbestos materials
- Risk assessments, toolbox talks, and hands-on PPE practice
- Decontamination and containment exercises
- Written assessments and practical evaluation

Course Outline

DETAILED 5-DAY COURSE OUTLINE (CUSTOMIZABLE)

- Training Hours:** 7:30 AM – 3:30 PM
- Daily Format:** 3–4 Learning Modules | Coffee Breaks: 09:30 & 11:15 | Lunch Buffet: 01:00 – 02:00
- Day 1: Introduction to Asbestos & Health Risks**
- Module 1:** History and Types of Asbestos (07:30 – 09:30)
 - Module 2:** Health Hazards: Asbestosis, Lung Cancer, Mesothelioma (09:45 – 11:15)
 - Module 3:** Legal Framework & International Regulations (11:30 – 01:00)
 - Module 4:** Responsibilities of Employers and Employees (02:00 – 03:30)
- Day 2: Identification & Risk Assessment**
- Module 1:** Recognizing ACMs in Buildings & Structures (07:30 – 09:30)
 - Module 2:** Conducting Asbestos Surveys and Material Assessment (09:45 – 11:15)
 - Module 3:** Risk Ranking & Action Levels (11:30 – 01:00)
 - Module 4:** Introduction to Asbestos Management Plans (02:00 – 03:30)
- Day 3: Safe Work Procedures & PPE**
- Module 1:** Principles of Safe Handling & Work Area Controls (07:30 – 09:30)
 - Module 2:** Use of PPE: Respirators, Coveralls, and Gloves (09:45 – 11:15)
 - Module 3:** Containment, Isolation, and Ventilation Techniques (11:30 – 01:00)
 - Module 4:** Wet Methods, HEPA Filtration & Safe Movement Practices (02:00 – 03:30)
- Day 4: Asbestos Removal & Emergency Procedures**
- Module 1:** Asbestos Abatement Techniques (07:30 – 09:30)
 - Module 2:** Controlled Demolition and Waste Packaging (09:45 – 11:15)
 - Module 3:** Emergency Decontamination and Exposure Response (11:30 – 01:00)
 - Module 4:** Transport and Disposal of Asbestos Waste (02:00 – 03:30)
- Day 5: Final Evaluation & Worksite Simulation**
- Module 1:** Site Setup & Containment Simulation Exercise (07:30 – 09:30)
 - Module 2:** Role-Play: Toolbox Talk and Emergency Drill (09:45 – 11:15)
 - Module 3:** Review of Local Regulations and Incident Reporting (11:30 – 01:00)
 - Module 4:** Final Assessment, Certification Wrap-Up & Q&A (02:00 – 03:30)

Certification

Participants will be awarded a **Certificate of Competence in Safely Handling Asbestos** upon successful completion of theoretical and practical assessments. This certification supports compliance with national/international asbestos safety regulations and remains valid for **2 years**.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation’s unique goals.
