► **Available delivery methods:** In-House Training

Introduction

The Health, Safety, and Environment (HSE) Workshop provides a comprehensive understanding of workplace safety, health management, and environmental protection. It aims to develop participants' awareness of potential hazards, promote preventive actions, and strengthen compliance with international HSE standards. Through interactive discussions and practical exercises, this workshop equips professionals to build and maintain safe, healthy, and environmentally sustainable workplaces.

Objectives

- Understand the principles and importance of HSE management systems
- Identify workplace hazards and assess associated risks
- Learn effective accident prevention and incident investigation techniques
- Promote safety culture and employee engagement in HSE practices
- Ensure compliance with global HSE laws and environmental regulations

Why Attend

This workshop helps professionals enhance their HSE competencies, reduce workplace risks, and contribute to sustainable organizational performance.

Target Audience

- HSE Managers and Officers
- Supervisors and Team Leaders
- Safety Inspectors and Coordinators
- Operations and Maintenance Staff
- Anyone responsible for workplace safety and environmental compliance

Individual Benefits

- Improved knowledge of occupational safety and environmental protection
- Enhanced ability to identify, assess, and mitigate workplace hazards
- Greater confidence in promoting a proactive safety culture

Organizational Benefits

- Fewer workplace accidents and improved safety performance
- Strengthened compliance with HSE and environmental standards
- Improved employee morale and productivity through a safer work environment

Instructional Methodology

A blend of interactive lectures, group discussions, case studies, hands-on exercises, and multimedia presentations focused on real-life HSE scenarios and practical solutions.

Course Outline

- Module 1: Introduction to HSE Principles and Management Systems
- Module 2: Hazard Identification and Risk Assessment Techniques
- Module 3: Occupational Health and Industrial Hygiene
- Module 4: Fire Safety, Emergency Preparedness, and Response
- Module 5: Environmental Management and Pollution Prevention
- Module 6: Safety Leadership and Developing a Safety Culture
- Module 7: Incident Investigation and Continuous Improvement

Certification

Participants who complete the workshop will receive a Certificate of Completion in Health, Safety and Environment (HSE) Workshop, recognizing their commitment and competence in maintaining safe and sustainable workplace practices.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation's unique goals.
