Introduction

The IOSH Managing Safely course provides managers and supervisors with the essential knowledge and tools to manage health and safety effectively within their teams. This internationally recognized program focuses on risk assessment, accident prevention, and creating a safe, compliant workplace.

Objectives

- Understand health and safety responsibilities and accountability.
- Assess and control workplace risks effectively.
- Identify hazards and implement practical safety measures.
- Investigate incidents and learn from them to prevent recurrence.
- Measure performance and improve safety management systems.

Why Attend

This course is ideal for anyone in a supervisory or management role who wants to gain a strong foundation in health and safety principles while earning a globally respected IOSH certification.

Target Audience

Managers, supervisors, team leaders, safety representatives, and anyone responsible for managing safety at work.

Individual Benefits

- Gain IOSH-accredited certification.
- Learn to identify and manage workplace risks confidently.
- Improve decision-making and leadership in safety matters.

Organizational Benefits

- Strengthen compliance with health and safety legislation.
- Reduce accidents, downtime, and associated costs.
- Build a proactive safety culture across departments.

Instructional Methodology

Instructor-led training, case studies, interactive workshops, and practical assessments.

Course Outline

Module 1: Introducing Managing Safely

Module 2: Assessing Risks

Module 3: Controlling Risks

Module 4: Understanding Responsibilities

Module 5: Identifying Hazards

Module 6: Investigating Incidents

Module 7: Measuring Performance

Certification

Upon successful completion of the assessment and practical project, participants will receive the IOSH Managing Safely Certificate issued by the Institution of Occupational Safety and Health (IOSH), UK.
