ISO 14001:2015 TRANSITION TRAINING: ENVIRONMENTAL MANAGEMENT SYSTEM

"Master the Transition to the Updated ISO 14001:2015 Environmental Standards"

Schedule

Venue (InHouse)	Fees
At Your Organization Premises	Ask For The Quotation

Introduction

This course provides participants with a comprehensive understanding of the changes introduced in ISO 14001:2015 and how they impact existing Environmental Management Systems (EMS). It is designed to help organizations transition smoothly from ISO 14001:2004 to the new 2015 standard by focusing on risk-based thinking, leadership, and life-cycle perspective.

Objectives

- Understand the key changes and new requirements of ISO 14001:2015.
- Learn how to apply the new structure (Annex SL) to your EMS.
- Gain practical knowledge on integrating risk-based thinking into environmental management.
- Identify gaps in existing systems and develop a transition plan.
- Enhance leadership and commitment towards environmental sustainability.

Why Attend

This course is essential for professionals involved in environmental management and compliance who want to ensure their organizations stay aligned with international standards and maintain certification under ISO 14001:2015.

Target Audience

Environmental managers, internal auditors, quality and HSE professionals, compliance officers, and consultants responsible for EMS implementation or auditing.

Individual Benefits

- Gain a solid understanding of ISO 14001:2015 requirements.
- Strengthen professional competence in environmental management.
- Enhance career prospects with updated ISO transition knowledge.

Organizational Benefits

- Ensure smooth transition from ISO 14001:2004 to ISO 14001:2015.
- Improve environmental performance and compliance.
- Demonstrate leadership in sustainability and corporate responsibility.

Instructional Methodology

Interactive lectures, case studies, group discussions, and gap analysis exercises for practical understanding of ISO 14001:2015 requirements.
