Introduction

This program is designed to boost the competency of instructional designers by providing real-world assessments, peer collaboration, and practical feedback to master learning solutions.

Objectives

- Understand the latest instructional design theories and methodologies.
- Apply real-world feedback to improve design practices.
- Gain access to a toolkit of resources for immediate use.

Why Attend

- Enhance your instructional design capabilities and prepare for the evolving demands of learning professionals.

Target Audience

Experienced instructional designers looking to validate and enhance their skills through formal training.

Individual Benefits

- Access to a comprehensive guide on instructional design.
- Experience peer evaluations and feedback to refine your work.

Organizational Benefits

Organizations will benefit from having skilled instructional designers who can create effective learning solutions.

Instructional Methodology

The course includes hands-on design projects, peer reviews, and expert feedback.

Course Outline

- Instructional design theory
- Practical application of design principles
- Collaborative peer evaluations
- Final learning project presentation

Certification

Participants will receive the ATD Master Instructional Designer certification.
