

E - HR: MODERN TRENDS AND APPLICATIONS

“Digitizing Human Resources for the Future Workplace”

Schedule

Venue (InHouse)	Fees
At Your Organization Premises	Ask For The Quotation

Introduction

The **E-HR: Modern Trends and Applications** course provides a comprehensive overview of how technology is transforming the human resource function. Participants will explore modern HR digital tools, automation, and analytics that enhance efficiency, accuracy, and employee engagement. The course emphasizes how organizations can leverage E-HR systems to optimize workforce management and align HR strategies with business goals.

Objectives

- Understand the concept and evolution of electronic HR (E-HR).
- Explore modern HR technologies, including AI, HRIS, and cloud-based systems.
- Learn to implement and manage E-HR systems effectively.
- Gain insights into data analytics for HR decision-making.
- Understand cybersecurity and data privacy in HR digitalization.

Why Attend

Technology is evolving rapidly and the HR practitioner is challenged to make full use of this resource. This course is designed to help HR professionals optimize their use of today's technologies in order to maximize value and contribution to the organization's bottom line. By highlighting all the new trends and technologies that affect HR management, this course will help HR professionals stay connected, identify key HR competencies in the recruitment of new talent and develop a comprehensive HR digital strategy.

Target Audience

- HR Professionals and Managers
- HR Analysts and System Administrators
- HR Consultants and Strategists
- Business Leaders and Decision-Makers

Individual Benefits

- Improved technical competence in digital HR systems.
- Ability to use analytics for strategic HR planning.
- Enhanced productivity through automation and data-driven insights.

Organizational Benefits

- Increased efficiency in HR operations through technology.
- Better data management and decision-making capabilities.
- Enhanced employee engagement through self-service tools and digital platforms.

Instructional Methodology

- Live demonstrations of E-HR tools
- Interactive discussions and case studies
- Group exercises and digital simulations
