► **Available delivery methods:** In-House Training

Introduction

Fixed assets represent one of the most significant investments in any organization. Effective accounting and management of these assets are essential for ensuring accuracy in financial reporting, regulatory compliance, and operational efficiency. The Certificate in Fixed Assets Accounting and Management course provides comprehensive training on the end-to-end processes of asset acquisition, capitalization, depreciation, revaluation, impairment, disposal, and reporting.

Participants will gain hands-on knowledge of international accounting standards (IAS 16 and related IFRS), internal control procedures, and modern asset management practices. This course equips finance professionals with the expertise to maintain complete, accurate, and compliant fixed asset records while supporting strategic decision-making and cost optimization.

Objectives

By the end of this course, participants will be able to:

- Understand the key concepts and accounting treatments related to fixed assets.
- Implement effective fixed asset management systems and policies.
- Accurately record asset acquisitions, transfers, and disposals.
- Apply depreciation, revaluation, and impairment accounting as per IFRS/IAS 16.
- Conduct asset verification, tagging, and reconciliation processes.
- Strengthen internal controls to prevent asset loss or misstatement.
- Generate accurate and compliant fixed asset reports for decision-making.

Why Attend

Fixed asset accounting errors can lead to financial misstatements, audit issues, and regulatory non-compliance. This course provides the technical knowledge and best practices required to manage fixed assets efficiently and in line with global standards. Attending this program will enhance your ability to ensure transparency, accountability, and operational integrity in asset management.

Target Audience

This course is suitable for:

- Accountants and Fixed Asset Officers
- Finance Managers and Controllers
- Auditors and Compliance Professionals
- Property and Asset Management Personnel
- Budget and Cost Accountants
- Anyone involved in managing or recording fixed assets

Individual Benefits

- Gain a complete understanding of fixed asset lifecycle management.
- Improve technical knowledge of IFRS/IAS 16 and related accounting standards.
- Strengthen skills in asset tracking, reconciliation, and reporting.
- Enhance ability to detect and prevent asset misuse or misstatement.
- Increase professional competence and career advancement potential.

Organizational Benefits

- Improve accuracy and compliance in fixed asset accounting.
- Strengthen internal controls over asset acquisition and disposal.
- Reduce risk of asset loss, fraud, or financial misreporting.
- Optimize capital expenditure and maintenance cost management.
- Ensure efficient utilization of organizational assets.
- Support strategic planning with accurate asset valuation and reporting.

Instructional Methodology

This course uses a highly interactive and practical approach, including:

- Real-life case studies and examples of asset management challenges
- Hands-on exercises in asset accounting and reporting
- Group discussions and scenario-based workshops
- Instructor-led lectures and practical demonstrations
- Q&A sessions and feedback on best practices

Course Outline

- Module 1: Overview of Fixed Assets and Their Role in Financial Management
- Module 2: Accounting Standards Governing Fixed Assets (IAS 16, IAS 36, IFRS 5)
- Module 3: Fixed Asset Recognition, Classification, and Valuation
- Module 4: Capitalization Rules and Expenditure Policies
- Module 5: Depreciation Methods, Revaluation, and Impairment Testing
- Module 6: Asset Transfers, Disposals, and Derecognition
- Module 7: Internal Controls and Audit of Fixed Assets
- Module 8: Physical Verification, Tagging, and Asset Register Management
- Module 9: Reporting and Disclosure Requirements under IFRS
- Module 10: Capstone Project – Developing a Fixed Asset Accounting and Control Framework

Certification

Upon successful completion, participants will receive a Certificate in Fixed Assets Accounting and Management, recognizing their professional competence in managing the full lifecycle of fixed assets with accuracy, compliance, and strategic insight.
