Introduction

With globalization and cross-border business expansion, the demand for transparency and consistency in financial reporting has never been greater. The Certificate in International Financial Reporting (Cert IFR) provides comprehensive training on the International Financial Reporting Standards (IFRS) and their practical application in real-world business scenarios.

This program is designed to enhance the technical knowledge and analytical skills of finance professionals by equipping them with the latest IFRS principles, presentation requirements, and disclosure practices. Participants will learn how to interpret, apply, and report financial information in accordance with global standards, ensuring accuracy, comparability, and compliance.

Objectives

By the end of this course, participants will be able to:

- Understand the conceptual framework of IFRS and the IASB structure.
- Apply key IFRS standards in preparing and presenting financial statements.
- Recognize and account for revenue, leases, financial instruments, and taxes under IFRS.
- Manage fair value measurements, impairment, and revaluation principles.
- Prepare consolidated financial statements for group reporting.
- Identify the impact of IFRS adoption and transition requirements.
- Ensure compliance with international disclosure and reporting obligations.
