At Your Organization Premises	Ask For The Quotation

Introduction

The CIMA Diploma in Performance Management (P2) builds on foundational management accounting skills to equip professionals with advanced analytical and strategic techniques. This course focuses on providing in-depth knowledge of performance measurement, management control systems, risk analysis, and decision-making tools required for organizational excellence.

Participants will develop the expertise to interpret complex financial information, manage performance metrics, and support strategic business decisions, aligning operational performance with organizational objectives. The program adheres to the CIMA syllabus, ensuring internationally recognized standards.

Objectives

By the end of this course, participants will be able to:

- Apply advanced costing and management accounting techniques to enhance performance.
- Design and implement performance measurement and management control systems.
- Conduct strategic variance analysis and performance evaluation.
- Integrate financial and non-financial data for decision-making.
- Analyze business risk and recommend mitigation strategies.
- Align management accounting practices with organizational strategy.
- Use advanced management accounting tools to support long-term planning.

Why Attend

In today's competitive business environment, organizations require finance professionals who can translate complex data into actionable insights. The P2 course equips participants with strategic management accounting skills that improve decision-making, operational efficiency, and profitability.

This program is ideal for those aspiring to senior roles in management accounting, finance leadership, and strategic business management.

Target Audience

This course is suitable for:

- Senior Management Accountants and Finance Managers
- Management Accountants preparing for CIMA P2 certification
- Business Analysts and Strategic Planners
- Project Managers and Financial Controllers
- Professionals aiming to enhance performance measurement and strategic decision-making skills

Individual Benefits

- Master advanced management accounting techniques.
- Strengthen analytical and strategic thinking capabilities.
- Improve ability to make informed business and financial decisions.
- Enhance professional credibility and career advancement opportunities.
- Gain international recognition aligned with CIMA standards.

Organizational Benefits

- Optimize resource allocation and operational efficiency.
- Enhance financial planning, performance measurement, and control systems.
- Support strategic decision-making with accurate data analysis.
- Reduce business risks and improve overall profitability.
- Build in-house expertise in advanced management accounting practices.

Instructional Methodology

- Expert-led instructor sessions aligned with CIMA P2 syllabus
- Case studies and real-world performance analysis exercises
- Group workshops on strategic decision-making
- Practical exercises on management control systems and performance metrics
- Mock assessments and exam-focused problem solving

Course Outline
