

MODERN STRATEGIES AND MANAGING FACILITIES MANAGEMENT

“Optimizing Facilities for Efficiency, Safety, and Sustainability”

Schedule

Date	Venue	Fees (Face-to-Face)
01 – 05 Mar 2026	Doha, Qatar	USD 3495 per delegate

Introduction

Facilities Management (FM) is a critical function in modern organizations, ensuring that buildings, assets, and services support operational efficiency, employee productivity, and safety. With evolving workplace requirements and technological advancements, facilities managers need to adopt modern strategies for sustainable and effective FM.

This intensive 5-day course provides participants with practical knowledge and tools to manage facilities efficiently while incorporating strategic planning, risk management, sustainability, and emerging technologies. Participants will gain hands-on insights into operational excellence, cost optimization, compliance, and innovative FM practices that support organizational goals.

Objectives

- By the end of this course, participants will be able to:
- Understand the strategic role of facilities management in organizations
 - Implement modern FM strategies for operational efficiency
 - Optimize space, assets, and resources through effective planning
 - Manage safety, security, and regulatory compliance in facilities
 - Apply sustainability and energy management practices
 - Integrate technology and automation into FM operations
 - Improve service delivery and cost-effectiveness

Why Attend

- Gain practical skills in modern facilities management practices
- Improve operational efficiency and service quality
- Learn to optimize space, energy, and resources
- Ensure compliance with safety, security, and regulatory standards
- Reduce operational costs while maintaining high-quality services
- Enhance strategic planning and decision-making in FM
- Learn from real-world case studies and best practices

Target Audience

This program is designed for:

- Facilities managers and coordinators
- Building and operations managers
- Maintenance, safety, and security professionals
- Workplace and infrastructure planners
- Energy and sustainability managers
- FM consultants and service providers

Individual Benefits

Key competencies that will be developed include:

- Strategic planning and management of facilities
- Operational excellence in maintenance, security, and services
- Skills in sustainability and energy-efficient practices
- Understanding compliance, regulations, and safety standards
- Effective resource optimization and cost control
- Knowledge of emerging FM technologies and trends

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Improved operational efficiency and resource utilization
- Enhanced safety, security, and compliance management
- Cost savings and optimized facility operations
- Sustainable and environmentally responsible practices
- Stronger support for organizational goals and workplace productivity
- Better integration of FM strategies with organizational planning

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings – Overview of FM principles, governance, and modern strategies
- Case Studies – Examples of successful FM implementations in organizations
- Workshops – Hands-on exercises for space planning, maintenance, and risk management
- Peer Exchange – Group discussions on FM challenges, innovations, and solutions
- Tools – Templates for FM strategy, asset management, maintenance schedules, and compliance checklists

Course Outline

Detailed 5-Day Course Outline

Training Hours: 7:30 AM – 3:30 PM Daily Format: 3–4 Learning Modules Coffee Breaks: 09:30 & 11:15 Lunch Buffet: 01:00 – 02:00

Day 1: Introduction to Modern Facilities Management

Module 1: Fundamentals of FM (07:30 – 09:30)

- Definition, scope, and evolution of FM
- Strategic role in organizations

Module 2: FM Governance & Frameworks (09:45 – 11:15)

- FM standards, policies, and organizational alignment

Module 3: Operational Excellence in FM (11:30 – 01:00)

- Core processes, maintenance, and service management

Module 4: Workshop – FM Assessment (02:00 – 03:30)

- Evaluating current FM practices and identifying improvement areas

Day 2: Space and Asset Management

Module 1: Space Planning & Optimization (07:30 – 09:30)

- Workplace efficiency and utilization strategies

Module 2: Asset Lifecycle Management (09:45 – 11:15)

- Asset inventory, tracking, and maintenance scheduling

Module 3: Resource & Cost Optimization (11:30 – 01:00)

- Budgeting, cost reduction, and efficiency improvements

Module 4: Workshop – Asset & Space Planning (02:00 – 03:30)

Day 3: Safety, Security, and Regulatory Compliance

Module 1: Safety Management in FM (07:30 – 09:30)

- Occupational safety, hazard management, and risk mitigation

Module 2: Security Management (09:45 – 11:15)

- Access control, surveillance, and emergency planning

Module 3: Regulatory Compliance (11:30 – 01:00)

- National and international FM regulations

Module 4: Workshop – Safety & Security Risk Assessment (02:00 – 03:30)

Day 4: Sustainability, Energy & Technology in FM

Module 1: Sustainability in FM (07:30 – 09:30)

- Energy efficiency, waste management, and green practices

Module 2: Smart Building Technologies (09:45 – 11:15)

- IoT, automation, and facility monitoring systems

Module 3: Innovation in FM (11:30 – 01:00)

- Emerging trends and best practices

Module 4: Workshop – Sustainability & Technology Integration (02:00 – 03:30)

Day 5: Strategic FM Planning & Implementation

Module 1: FM Strategy Development (07:30 – 09:30)

-

Aligning FM with organizational goals

Module 2: Risk Management & Business Continuity (09:45 – 11:15)

- Contingency planning and disaster recovery for facilities

Module 3: Performance Measurement & Reporting (11:30 – 01:00)

- KPIs, benchmarking, and continuous improvement

Module 4: Action Planning & Course Review (02:00 – 03:30)

- Developing a strategic FM roadmap
- Key takeaways and Q&A

Certification

Participants will receive a Certificate of Completion in Modern Strategies and Managing Facilities Management, validating their practical knowledge and competence in managing facilities strategically, ensuring operational efficiency, safety, compliance, and sustainability.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation’s unique goals.
