BACK-2-BASICS SAFETY MANAGEMENT

"Strengthen Workplace Safety through Practical Management Principles"

Schedule

Date	Venue	Fees (Online)
10 – 11 Jun 2026	Online	USD 700 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

Effective safety management is fundamental to protecting employees, assets, and organizational operations. This course provides participants with practical knowledge and strategies to implement basic yet effective safety management practices in the workplace. Attendees will learn to identify hazards, assess risks, and implement control measures while fostering a culture of safety awareness and accountability.

Through interactive online sessions, case studies, and exercises, participants will gain actionable skills to strengthen workplace safety programs, comply with legal and regulatory requirements, and reduce incidents. The course emphasizes practical approaches to creating safer work environments across diverse industries.

Objectives

By the end of this course, participants will be able to:

- Understand core principles of workplace safety management.
- Identify hazards and assess risks effectively.
- Implement preventive and corrective safety measures.
- Develop and maintain safety policies, procedures, and protocols.
- Promote a culture of safety and compliance within the organization.
- Apply best practices to reduce workplace incidents and ensure regulatory compliance.

Why Attend

Participants should attend this course to:

- Gain practical knowledge of foundational safety management principles.
- Learn hazard identification and risk assessment techniques.
- Improve organizational safety culture and awareness.
- Ensure compliance with legal and regulatory safety requirements.
- Minimize workplace incidents, injuries, and operational risks.

Target Audience

This program is designed for:

- Safety officers and coordinators
- Supervisors and team leaders
- Operations and facility managers
- HR and compliance personnel
- Professionals responsible for workplace safety and risk management

Individual Benefits

Key competencies that will be developed include:

- Identifying and mitigating workplace hazards effectively
- Conducting risk assessments and implementing control measures
- Developing and maintaining safety policies and procedures
- Promoting safety awareness and accountability among staff
- Practical knowledge of regulatory compliance in occupational safety

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Enhanced workplace safety and reduced incidents
- Improved compliance with occupational safety regulations
- Stronger organizational safety culture and accountability
- Better preparedness for audits, inspections, and emergency situations
- Optimized risk management and operational efficiency

Instructional Methodology

The course follows a blended online learning approach combining theory with practical exercises:

- Strategy Briefings – Overview of safety management principles and regulatory frameworks
- Case Studies – Real-world examples of effective safety management and lessons learned
- Workshops – Interactive exercises in hazard identification, risk assessment, and control measures
- Peer Exchange – Group discussions on safety challenges and best practices
- Tools – Templates for risk assessment, safety audits, and incident tracking
