

GENERAL OFFSHORE SAFETY

"Ensuring Safety and Compliance in Offshore Operations"

Schedule

Date	Venue	Fees (Online)
14 - 18 Jun 2026	Online	USD 1500 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

Working offshore involves unique hazards and operational challenges that require comprehensive safety knowledge and practices. This course equips participants with essential skills and knowledge to manage safety effectively in offshore environments, focusing on regulatory compliance, hazard identification, and emergency response preparedness. Attendees will gain a practical understanding of offshore safety requirements and best practices applicable to oil, gas, and marine operations.

Through interactive online sessions, case studies, and practical exercises, participants will develop the competence to identify risks, implement preventive measures, and respond effectively to emergencies. The course emphasizes proactive safety management to protect personnel, assets, and the environment in offshore operations.

Objectives

By the end of this course, participants will be able to:

- Understand key offshore safety principles and regulations.
- Identify hazards and conduct risk assessments in offshore environments.
- Implement effective safety management systems and preventive measures.
- Respond to emergencies and ensure operational continuity.
- Promote a culture of safety and compliance among offshore personnel.
- Apply best practices for safe offshore operations across different sectors.

Why Attend

Participants should attend this course to:

- Gain comprehensive knowledge of offshore safety principles and regulations.
- Learn to identify and mitigate risks specific to offshore environments.
- Improve emergency preparedness and response capabilities.
- Ensure compliance with industry and regulatory safety standards.
- Enhance safety culture and accountability among offshore teams.

Target Audience

This program is designed for:

- Offshore engineers, supervisors, and managers
- Safety officers and coordinators in oil, gas, and marine operations
- Operations and facility managers responsible for offshore projects
- Emergency response and risk management professionals
- Professionals tasked with ensuring offshore health, safety, and compliance

Individual Benefits

Key competencies that will be developed include:

- Hazard identification and risk assessment in offshore environments
- Implementing offshore safety management systems
- Emergency preparedness and response skills
- Knowledge of regulatory compliance and industry standards
- Promoting safety awareness and accountability offshore

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Reduced offshore incidents and improved safety performance
- Compliance with regulatory and industry safety standards
- Enhanced emergency preparedness and operational resilience
- Stronger safety culture and accountability across offshore teams
- Optimized risk management in offshore operations

Instructional Methodology

The course follows a blended online learning approach combining theory with practical application:

- Strategy Briefings – Overview of offshore safety principles, regulations, and best practices
- Case Studies – Examples of offshore safety incidents and lessons learned
- Workshops – Interactive exercises in hazard identification, risk assessment, and emergency planning
- Peer Exchange – Group discussions on challenges, solutions, and best practices in offshore safety
- Tools – Templates for safety audits, risk assessments, and emergency response planning

MAWA EVENTS

Course Outline

Detailed 5-Day Course Outline

Training Hours: 9:00 AM – 5:00 PM Daily Format: 3–4 Learning Modules | Online Breaks: 11:00 & 03:00

Day 1: Introduction to Offshore Safety

Module 1: Offshore Safety Principles (09:00 – 11:00)

- Overview of offshore hazards and risks
- Regulatory frameworks and industry standards
- Roles and responsibilities for offshore safety

Module 2: Risk Assessment and Hazard Identification (11:15 – 01:00)

- Identifying offshore hazards
- Conducting risk assessments
- Prioritizing safety interventions

Day 2: Safety Management Systems Offshore

Module 3: Implementing Safety Management Systems (01:45 – 03:00)

- Components of effective safety management systems
- Procedures, protocols, and monitoring tools
- Compliance and reporting requirements

Module 4: Operational Safety Practices (03:15 – 05:00)

- Safe work practices and procedures
- Equipment and personal protective systems
- Incident prevention and lessons learned

Day 3: Emergency Preparedness and Response

Module 5: Emergency Planning (09:00 – 11:00)

- Emergency response plans and drills
- Communication and coordination during incidents
- Evacuation, rescue, and medical response

Module 6: Crisis Management and Case Studies (11:15 – 01:00)

- Analysis of offshore safety incidents
- Lessons learned and preventive measures
- Action planning for improvement

Day 4: Advanced Offshore Safety Practices

Module 7: Hazardous Materials and Environment Safety (01:45 – 03:00)

- Handling hazardous substances offshore
- Environmental protection and spill prevention
- Waste management and sustainability practices

Module 8: Monitoring and Continuous Improvement (03:15 – 05:00)

- Safety performance indicators and audits
- Continuous improvement in offshore safety
- Reporting and corrective action strategies

Day 5: Integration and Leadership in Offshore Safety

Module 9: Leadership and Safety Culture (09:00 – 11:00)

-

Promoting a proactive safety culture offshore

- Leadership roles and accountability
- Staff engagement and training

Module 10: Action Planning and Wrap-Up (11:15 - 01:00)

- Developing actionable offshore safety plans
- Implementing lessons learned
- Continuous improvement roadmap

Certification

Participants will receive a Certificate of Completion in General Offshore Safety, validating their expertise in offshore safety management, risk assessment, emergency preparedness, and compliance with industry standards.

Why Choose MAWA Events

- **Global Expertise:** More than 17 years of experience in professional training and consulting.
- **Industry-Leading Faculty:** Courses delivered by seasoned professionals with hands-on experience.
- **Practical Insights:** Learn to turn theory into actionable strategies for real-world business impact.
- **Client-Focused Solutions:** Customized programs designed to achieve your organisation’s unique goals.
