

AGILEPM® FOUNDATION + PRACTITIONER - APMG INTERNATIONAL, UK

"Master Agile Project Management to Deliver Projects Faster, Smarter, and with Higher Value"

Schedule

Date	Venue	Fees (Online)
14 - 18 Jun 2026	Online	USD 1500 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

Agile Project Management is now a cornerstone methodology for organizations aiming to deliver projects efficiently while adapting to changing business environments. This 5-day intensive course provides participants with both Foundation and Practitioner level training in AgilePM®, equipping them with the knowledge and skills to manage projects in an agile environment effectively.

The course covers key Agile principles, techniques, and governance frameworks, enabling participants to apply agile practices in real-world projects. Through interactive sessions, case studies, and practical exercises, participants will gain the competence to lead agile projects successfully and achieve higher productivity, quality, and stakeholder satisfaction.

Objectives

By the end of this course, participants will be able to:

- Understand the principles and philosophy of Agile project management
- Apply AgilePM® processes and frameworks for project delivery
- Plan, manage, and monitor agile projects effectively
- Utilize Agile roles, products, and techniques for practical project execution
- Tailor agile methods to suit organizational project environments
- Prepare for and pass the AgilePM® Foundation and Practitioner certification exams

Why Attend

Participants should attend this training to:

- Gain internationally recognized AgilePM® certification
- Improve project delivery speed and adaptability
- Learn practical tools and techniques for agile project management
- Enhance team collaboration, communication, and stakeholder engagement
- Develop leadership skills for agile project environments

Target Audience

This program is designed for:

- Project managers and team leaders
- Program and portfolio managers
- Business analysts and consultants
- Project team members seeking Agile certification
- Professionals responsible for delivering projects using agile methods

Individual Benefits

Key competencies that will be developed include:

- Ability to manage agile projects effectively using AgilePM® framework
- Skills to apply agile principles and techniques in real projects
- Competence in planning, monitoring, and controlling agile project delivery
- Knowledge to balance business needs, project governance, and agile practices
- Readiness to achieve AgilePM® Foundation and Practitioner certification

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Improved project delivery efficiency and adaptability
- Stronger alignment between project outcomes and business objectives
- Enhanced team collaboration and stakeholder engagement
- Reduced project risks and increased success rates
- Adoption of best practices in agile project management

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings – Deep dive into AgilePM® principles, frameworks, and processes
- Case Studies – Real-world examples of successful agile project implementations
- Workshops – Hands-on exercises in agile planning, monitoring, and execution
- Peer Exchange – Group discussions on challenges and lessons learned in agile projects
- Tools – Templates for project planning, backlog management, and agile tracking

Course Outline

Detailed 5-Day Course Outline

Training Hours: 7:30 AM – 3:30 PM Daily Format: 3–4 Learning Modules | Coffee breaks: 09:30 & 11:15 | Lunch Buffet: 01:00 – 02:00

Day 1: Introduction to Agile and AgilePM® Framework

Module 1: Agile Principles and Philosophy (07:30 – 09:30)
