

MSP® (MANAGING SUCCESSFUL PROGRAMMES) FOUNDATION + PRACTITIONER - AXELOS / PEOPLECERT, UK

"Master Programme Management for Strategic Business Success"

Schedule

Date	Venue	Fees (Online)
05 - 09 Jul 2026	Online	USD 1500 per delegate

► Available delivery methods: Face-to-Face & Online Training

Introduction

In today's complex business environment, organizations increasingly rely on structured programme management to deliver strategic objectives. MSP® (Managing Successful Programmes) provides a globally recognized framework for planning, managing, and delivering programmes that achieve business transformation and value realization. This intensive 5-day online training equips participants with both Foundation and Practitioner-level knowledge, enabling them to manage programmes efficiently and effectively across diverse organizational contexts.

The course combines theoretical insights, practical exercises, and real-world examples to provide participants with the skills required to implement MSP® principles successfully. Attendees will learn to coordinate multiple projects within programmes, manage risks and benefits, and apply governance structures that align programme delivery with strategic objectives.

Objectives

By the end of this course, participants will be able to:

- Understand the MSP® framework and its principles for successful programme management
- Apply MSP® governance themes, processes, and transformational flow to programmes
- Identify and manage risks, issues, and interdependencies within programmes
- Develop and implement programme plans aligned with organizational strategy
- Prepare for MSP® Foundation and Practitioner-level certification exams
- Demonstrate competence in applying MSP® principles in real-world programme scenarios

Why Attend

- Gain internationally recognized MSP® Foundation + Practitioner certification
- Learn to manage complex programmes with multiple projects effectively
- Improve alignment of programme delivery with strategic organizational objectives
- Enhance risk management, governance, and benefits realization skills
- Acquire practical tools and techniques for programme planning, monitoring, and control
- Interact with global professionals and share best practices

Target Audience

This program is designed for:

- Programme managers and aspiring programme leaders
- Project managers responsible for delivering projects within a programme
- Portfolio managers seeking strategic alignment of projects and programmes
- Business analysts and consultants involved in programme delivery
- Professionals aiming to achieve MSP® Foundation + Practitioner certification

Individual Benefits

Key competencies that will be developed include:

- Mastery of MSP® principles, governance themes, and transformational flow
- Skills to plan, manage, and control programmes effectively
- Ability to identify and manage risks, issues, and interdependencies
- Expertise in stakeholder engagement and benefits realization
- Preparation for MSP® Foundation + Practitioner certification
- Enhanced decision-making and leadership capabilities in programme contexts

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Ability to deliver strategic programmes aligned with organizational goals
- Improved governance, risk management, and benefits realization
- Increased coordination and efficiency across multiple projects
- Enhanced resilience and adaptability of programme delivery
- Structured approach to programme planning, monitoring, and control
- Better communication and stakeholder management across the organization

Instructional Methodology

The course follows a blended online learning approach combining theory with practice:

- Strategy Briefings - Deep dive into MSP® framework, governance, and programme lifecycle
- Case Studies - Real-world examples of successful programme management
- Workshops - Exercises on planning, risk management, and benefits realization
- Peer Exchange - Group discussions on challenges and lessons learned in programme delivery
- Tools - Templates for programme planning, risk logs, and progress reporting
