

PRINCE2® 7 PRACTITIONER - AXELOS / PEOPLECERT, UK

"Master Project Management Excellence with PRINCE2® 7 Practitioner Certification"

Schedule

Date	Venue	Duration	Fees (Online)
03 - 04 Aug 2026	Online	2 Days	USD 700 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

The PRINCE2® 7 Practitioner course equips project managers and professionals with the advanced skills to manage projects effectively using the PRINCE2® methodology. This globally recognized certification from AXELOS / PEOPLECERT provides a structured framework for project management, ensuring that projects are delivered on time, within budget, and aligned with business objectives.

This intensive 2-day online training focuses on practical application, enabling participants to confidently apply PRINCE2® principles, themes, and processes to real-world project scenarios. Attendees will gain hands-on experience in planning, executing, monitoring, and closing projects efficiently while mitigating risks and managing stakeholders effectively.

Objectives

By the end of this course, participants will be able to:

- Apply PRINCE2® 7 principles, themes, and processes to projects of varying complexity.
- Tailor PRINCE2® methodology to suit organizational and project-specific requirements.
- Lead projects confidently, ensuring alignment with business goals.
- Identify, assess, and manage project risks and issues effectively.
- Understand project governance and decision-making processes.

Why Attend

- Gain a globally recognized PRINCE2® 7 Practitioner certification.
- Enhance your project management skills for real-world application.
- Learn practical tools and templates to streamline project delivery.
- Increase your career prospects and organizational value.
- Connect with experienced project management professionals and peers.

Target Audience

This program is designed for:

- Project managers seeking PRINCE2® Practitioner certification
- Team leaders and project coordinators
- Professionals involved in project delivery, planning, and execution
- Consultants and advisors in project management

Individual Benefits

Key competencies that will be developed include:

- Mastery of PRINCE2® 7 methodology, principles, and processes
- Ability to tailor PRINCE2® to specific projects and organizations
- Skills in risk and issue management, project planning, and quality control
- Improved decision-making and stakeholder management abilities
- Enhanced project leadership and governance skills

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Improved project success rates through structured management practices
- Effective resource utilization and cost control
- Enhanced risk mitigation and issue resolution capabilities
- Stronger alignment of projects with strategic objectives
- Increased confidence and competence of project teams

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings - Deep dive into PRINCE2® 7 methodology, principles, themes, and processes
- Case Studies - Real-world project scenarios and examples of successful project delivery
- Workshops - Hands-on exercises to create project plans, risk registers, and quality management strategies
- Peer Exchange - Group discussions on challenges, lessons learned, and best practices
- Tools - Templates for project planning, risk and issue management, reporting, and stakeholder communication
