

RISK MANAGEMENT & INTERNAL CONTROLS

“Strengthen Risk Oversight and Internal Control Systems for Organizational Resilience”

Schedule

Date	Venue	Fees (Face-to-Face)
08 - 10 Sep 2026	Muscat, Oman	USD 2,495 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

Effective risk management and robust internal controls are essential for safeguarding organizational assets, ensuring compliance, and achieving business objectives. This course provides participants with practical knowledge and tools to identify, assess, and mitigate risks while designing and implementing effective internal control frameworks. Participants will gain insights into regulatory requirements, risk assessment methodologies, and best practices for maintaining a strong control environment.

Through case studies, interactive workshops, and practical exercises, attendees will learn how to integrate risk management and internal controls into daily operations. By the end of the program, participants will be able to strengthen governance, enhance operational efficiency, and reduce the likelihood of financial and operational losses.

Objectives

By the end of this course, participants will be able to:

- Understand the principles of risk management and internal control frameworks.
- Identify, evaluate, and prioritize organizational risks.
- Develop and implement effective internal control systems.
- Ensure compliance with regulatory and corporate governance requirements.
- Monitor, review, and continuously improve risk management and control processes.

Why Attend

- Gain practical skills in risk assessment, mitigation, and internal control design.
- Learn how to integrate risk management with operational and strategic decision-making.
- Strengthen organizational governance and compliance culture.
- Reduce operational, financial, and reputational risks.
- Network and share experiences with peers in finance, audit, and risk management.

Target Audience

This program is designed for:

- Risk managers, internal auditors, and compliance officers
- Finance and accounting professionals
- Corporate governance and control professionals
- Project managers responsible for operational and financial oversight
- Consultants supporting risk management and internal control initiatives

Individual Benefits

Key competencies that will be developed include:

- Mastery of risk management frameworks and internal control principles.
- Ability to assess, monitor, and mitigate organizational risks.
- Skills in designing and implementing effective internal control systems.
- Enhanced knowledge of regulatory and compliance requirements.
- Capability to support governance and risk oversight in the organization.

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Improved risk management and control practices.
- Strengthened compliance with regulatory and corporate governance standards.
- Reduced operational, financial, and reputational exposure.
- Enhanced decision-making and operational efficiency.
- Stronger organizational resilience and governance culture.

Instructional Methodology

The course follows a blended learning approach combining theory with practice:

- Strategy Briefings - Overview of risk management principles and internal control frameworks
- Case Studies - Analysis of real-world examples of risk management and control failures and successes
- Workshops - Hands-on exercises for risk assessment, control design, and mitigation planning
- Peer Exchange - Group discussions on challenges and best practices in risk management
- Tools - Templates for risk registers, control matrices, and monitoring dashboards
