

AGILE BUSINESS ANALYST (AGILEBA®) FOUNDATION - APMG INTERNATIONAL, UK

"Master the fundamentals of Agile business analysis for effective project delivery."

Schedule

Date	Venue	Fees
06 - 08 Oct 2026	Online	USD 1000 per delegate

► **Available delivery methods:** Face-to-Face & Online Training

Introduction

In today's rapidly changing business environment, Agile practices have become essential for delivering projects efficiently while maximizing value for stakeholders. Agile Business Analysis equips professionals with the knowledge and techniques required to work effectively within Agile teams, ensuring requirements are accurately captured, prioritized, and delivered incrementally.

This 3-day intensive online training provides participants with a comprehensive understanding of Agile business analysis principles, techniques, and the AgileBA® methodology. Through interactive sessions, exercises, and real-world examples, participants will learn how to apply Agile approaches to analyze business needs, facilitate collaboration, and deliver successful project outcomes.

Objectives

By the end of this course, participants will be able to:

- Understand the AgileBA® framework and its relevance to business analysis.
- Apply Agile techniques for eliciting, analyzing, and prioritizing requirements.
- Facilitate effective collaboration between stakeholders and Agile teams.
- Support project delivery through incremental and iterative approaches.
- Prepare for the AgileBA® Foundation certification examination.

Why Attend

- Gain a solid foundation in Agile business analysis principles and practices.
- Learn how to work effectively within Agile teams.
- Improve stakeholder engagement and requirements management.
- Enhance project delivery efficiency and value realization.
- Prepare for internationally recognized AgileBA® certification.

Target Audience

This program is designed for:

- Business analysts and project managers.
- Product owners and Agile team members.
- Business stakeholders involved in Agile projects.
- Professionals seeking AgileBA® Foundation certification.
- Analysts and consultants responsible for Agile transformation initiatives.

Individual Benefits

Key competencies that will be developed include:

- Ability to apply Agile techniques for requirements gathering and analysis.
- Skills in stakeholder collaboration and facilitation.
- Understanding of Agile planning, prioritization, and delivery methods.
- Enhanced problem-solving and decision-making in Agile environments.
- Confidence in preparing for AgileBA® Foundation certification.

Organizational Benefits

Upon completing the training course, participants will demonstrate:

- Improved alignment of business analysis activities with Agile project goals.
- Enhanced collaboration between stakeholders and delivery teams.
- Increased efficiency and adaptability in project delivery.
- Reduced project risks and improved value delivery.
- Strengthened organizational capability in Agile business analysis.

Instructional Methodology

The course follows a blended online learning approach combining theory with practice:

- Strategy Briefings – AgileBA® methodology, principles, and lifecycle.
- Case Studies – Real-world examples of Agile business analysis.
- Interactive Discussions – Exercises in eliciting, analyzing, and prioritizing requirements.
- Workshops – Collaborative planning, stakeholder engagement, and user story development.
- Tools – Templates for requirements documentation, prioritization, and backlog management.
